Too,
Dro, your so
cute!! Man I don't
even know where to be-
gin, Except at the beginning.
Well it all started in 1961 when
I was born. No just kidding. Um, well
all I can say is your one of my best friends
and your almost like a second sister to me,
except when your off, then you need smacked.
I remember reading your thrilling Diary. You old Huff
I think your mom is so cute and nice, I don't know
where you came from (sike) your a cute kid

Love Me. Bear

Fort Cherry
High School
R.D. #4
McDonald,
Pa.
Volume 18

As America begins her third century,
we return to the land to find the '77 theme.
Looking at the American farmer and at what he does,
we see that he still works hard,
that he has an instinctive concern for ecology,
and that his own world has grown complex.

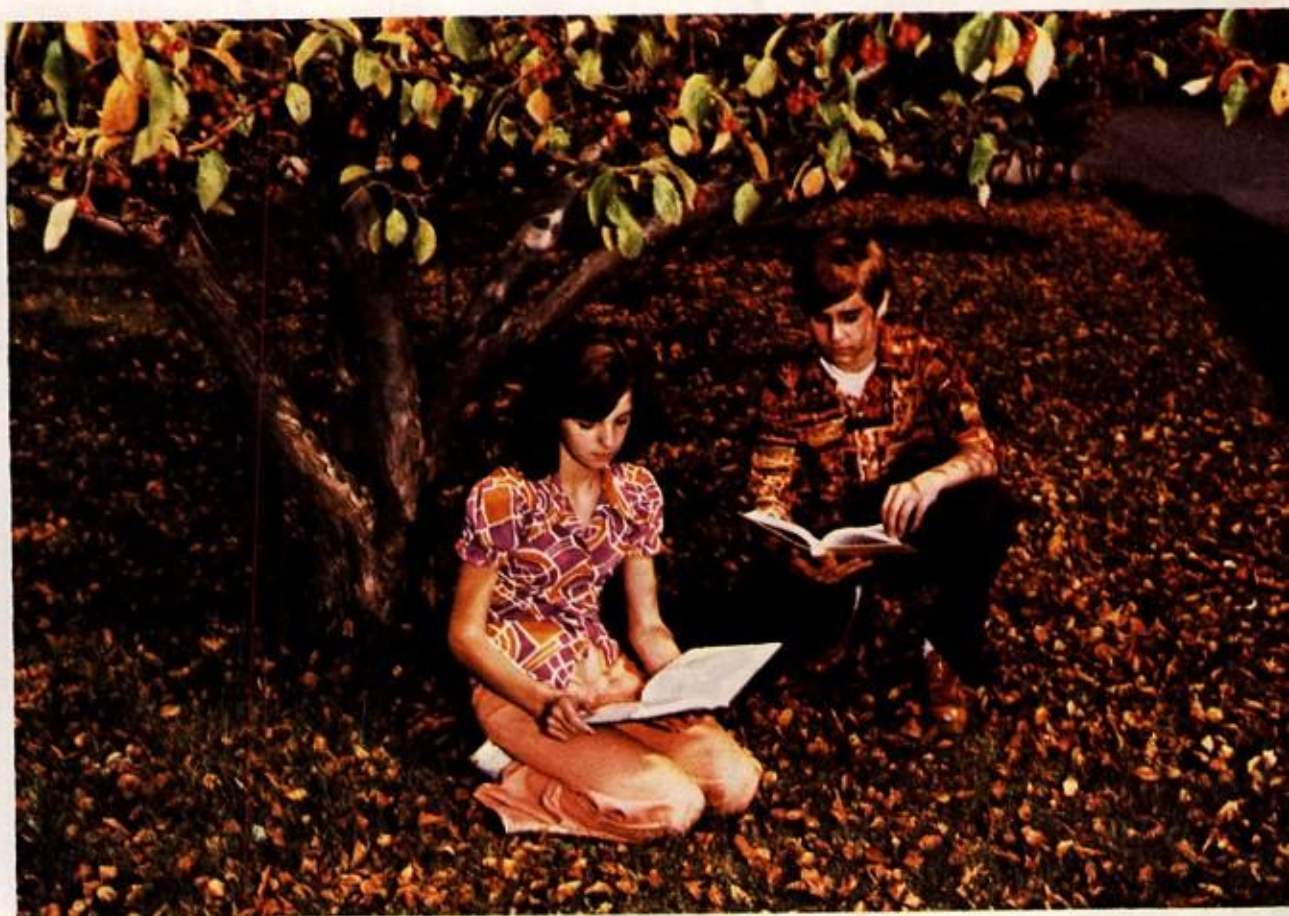

Ninety-five percent of our school district
is made up of farmlands . . .

Table of Contents

Athletics	152
Seniors	198
Closing	234
Advertisers	244
Index	263

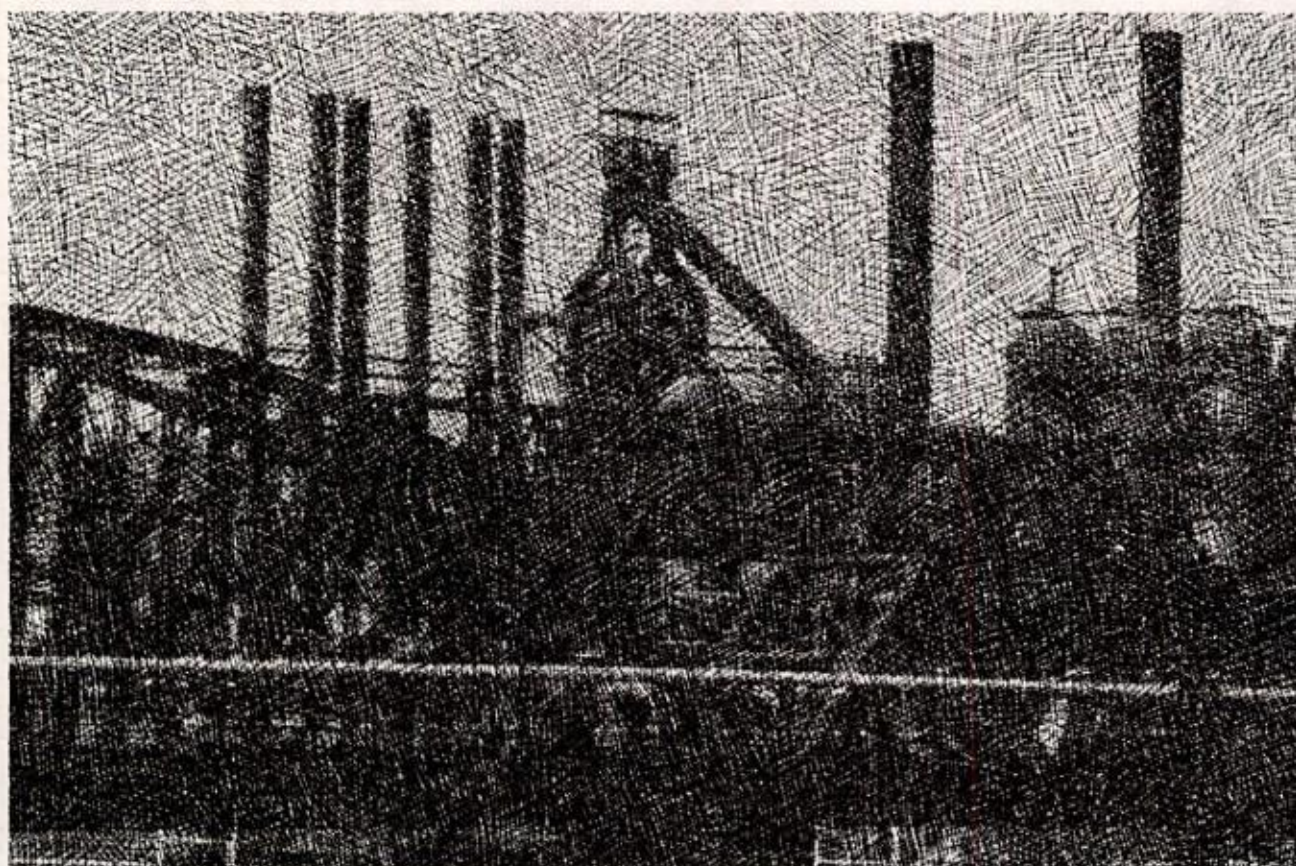

The first year of America's third century is a good time to express our admiration for the American farmer's past and present determination to make things grow. Inspired by his dedication, we also feel that this is an appropriate time to point out the parallels that exist between the cultivation of the land and the cultivation of young minds.

In 1977, there is a changed mood
in the life of our school . . .

As we accept the challenge of a changed, interdependent world, we are more serious and more determined to succeed. We realize that our green earth has now become vulnerable and that it is no longer enough for us to belong only to the business of farming, manufacturing, or educating.

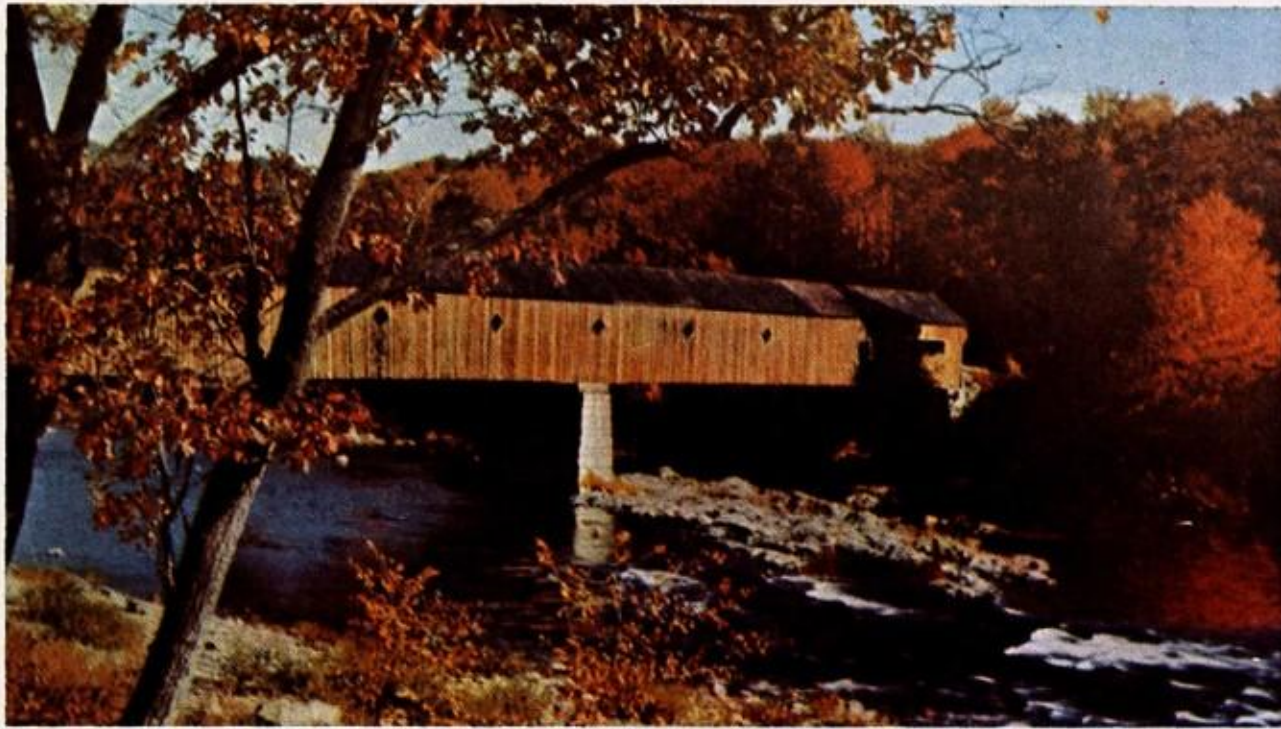

We now know that all of us, by necessity,
must really belong to the business of mankind . . .

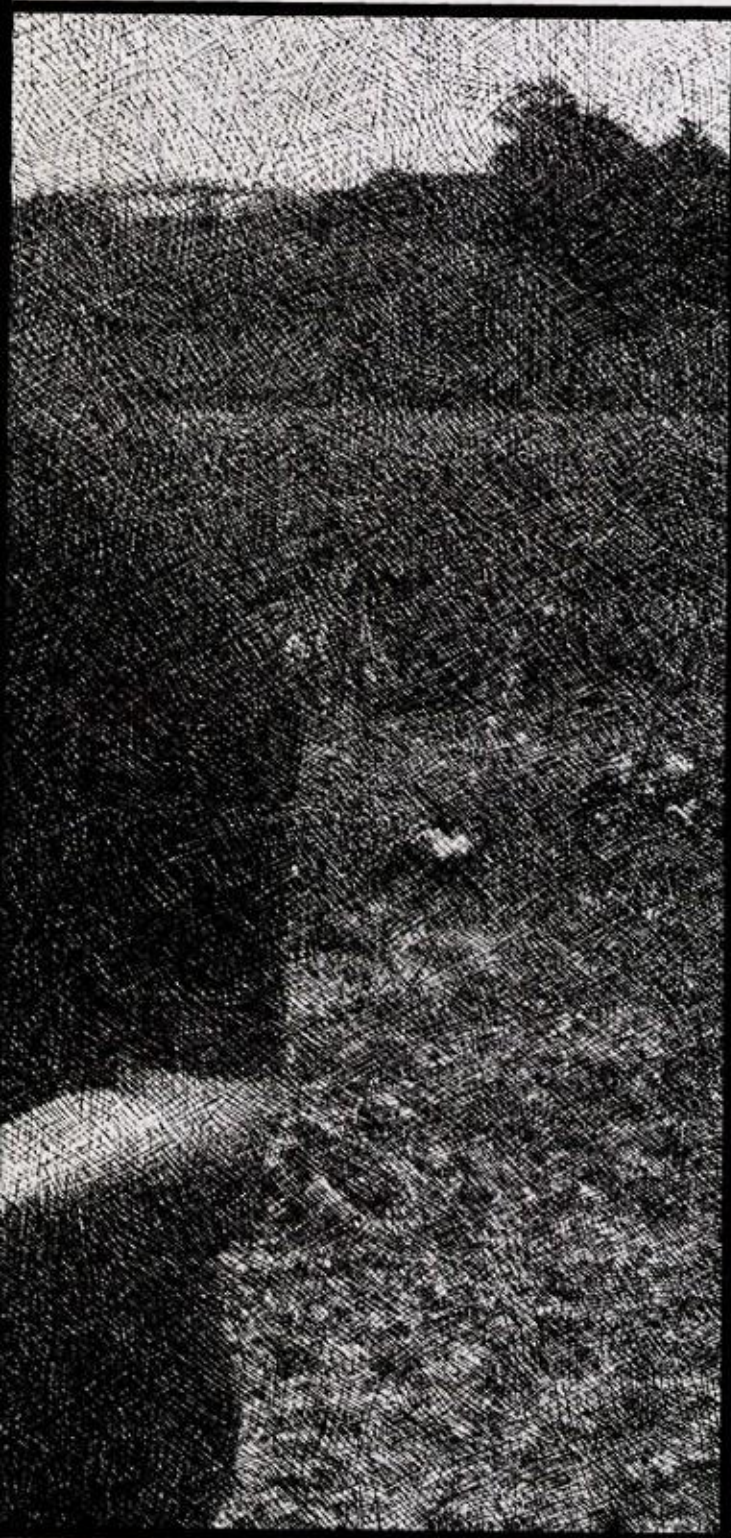

Re-dedicating ourselves to a new beginning of hard work, we are aware, as never before, of the value of people — all peoples — as the greatest resource on earth. We also know that the best way to harvest our potential is through education.

Shelly,
 No fellow basketball player Good Luck! I'll be
 playing together for two more years and our
 last year especially will be great because '79 '80
 In 1977, we know that we should preserve
 our land just as we preserve old cathedrals,
 old paintings, master works of all kinds.
 the rest and we sophmores have got what it takes
 maybe next year we won't fight so much since we
 saw how far it got us this year RMA Permit

*at the top of the page
as this year*

The life of the
Fort Cherry
student is as
varied and
demanding as
that of the
farmer.

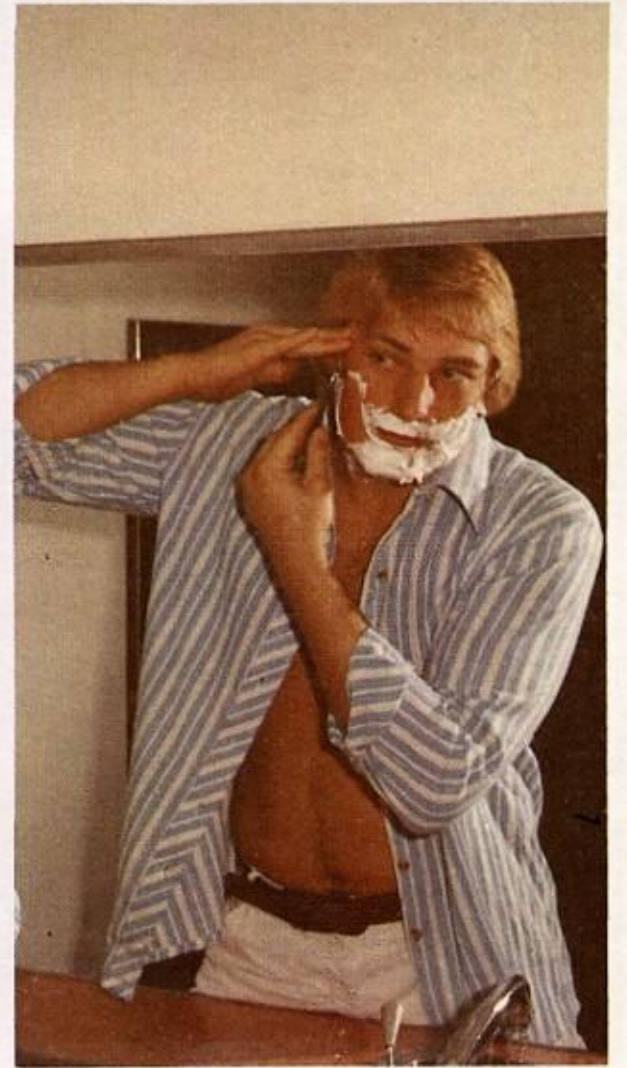

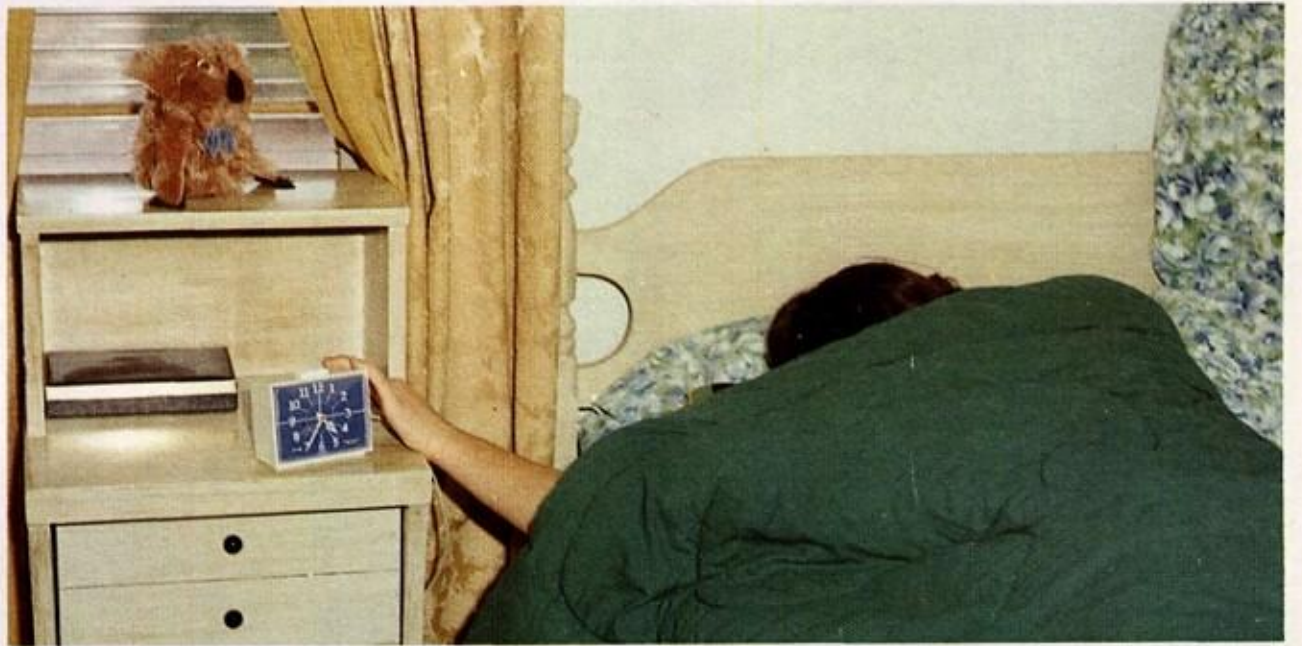

STUDENT LIFE

Long before the start of school, in the early hours of the morning, we rise from our warm beds to meet our long days filled with the joy and pain of growing up. For many of us there are the chores, the part time jobs, the studying; for some of us there is the satisfaction of just being able to make it to homeroom for roll call.

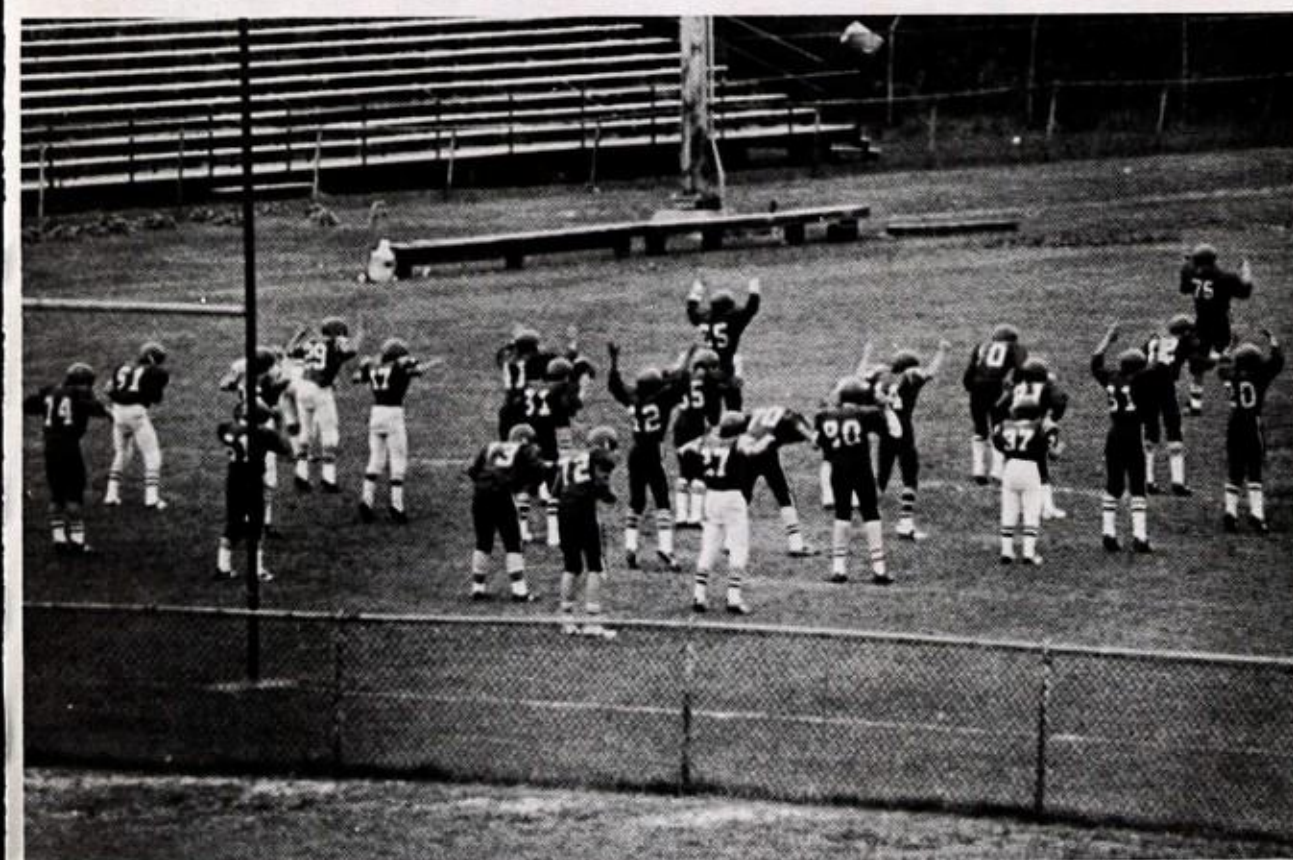

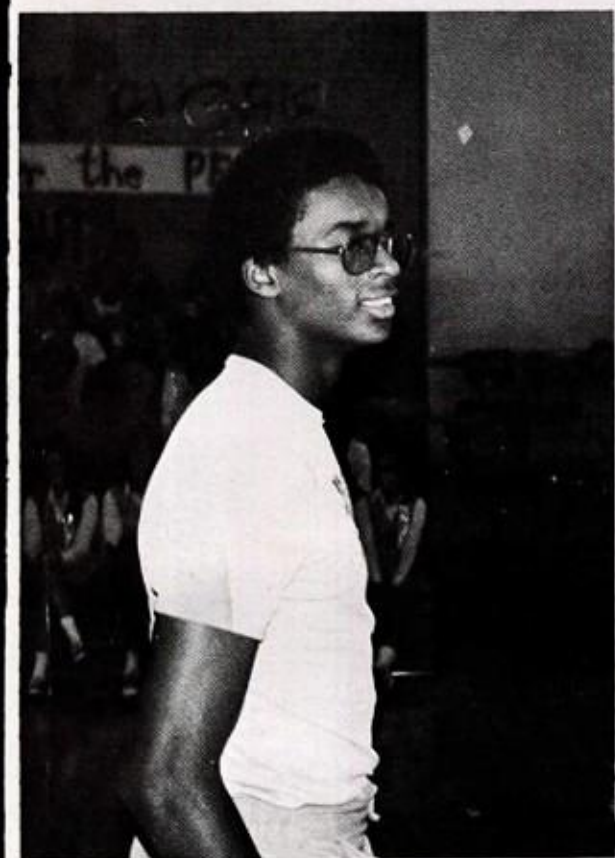

Our Day Begins Early

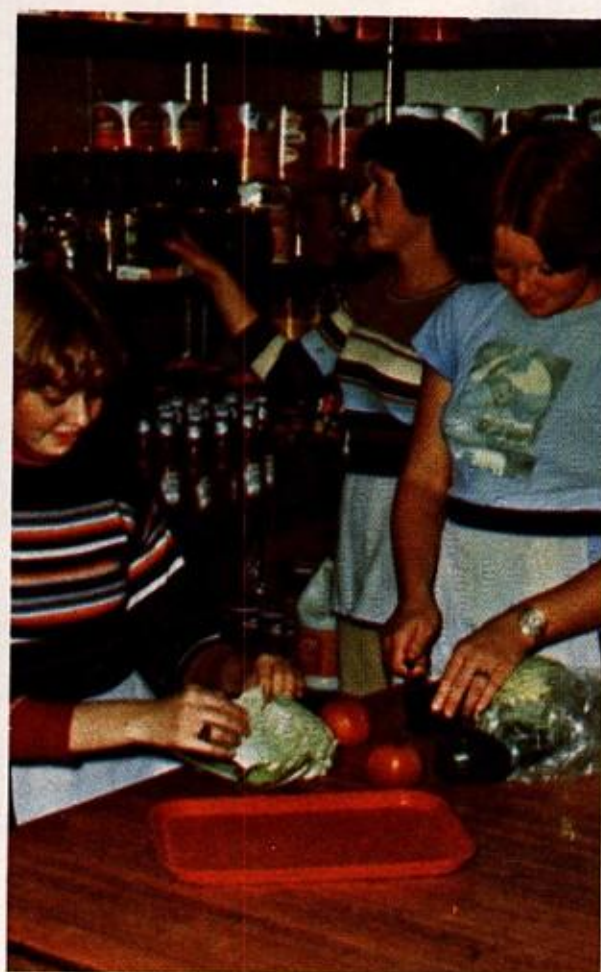

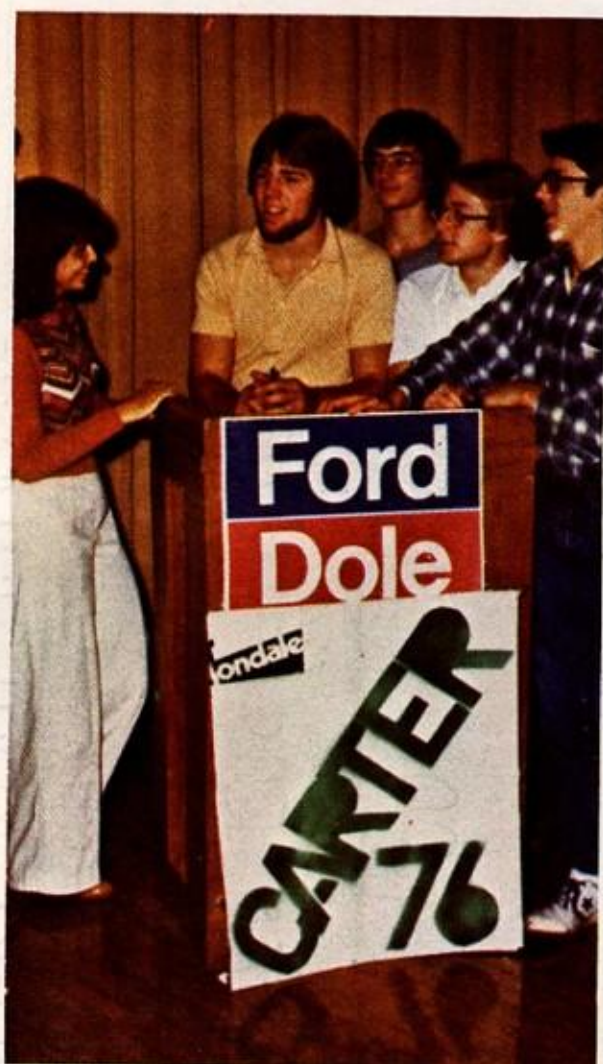

Our Time Is Rewarding

The actual day in school is never without its rewards for all who come. Knowledge, friends, laughter, insights sweet and bitter. And when the 3:30 bell rings, the day is only half gone. Majorettes, cheerleaders, drill team members, athletes — it is only now that we begin the practice that will make our performances faultless. The floors of noisy halls cluttered with books, pompoms, and coats finally become our study halls as we wait for the arrival of the late bus.

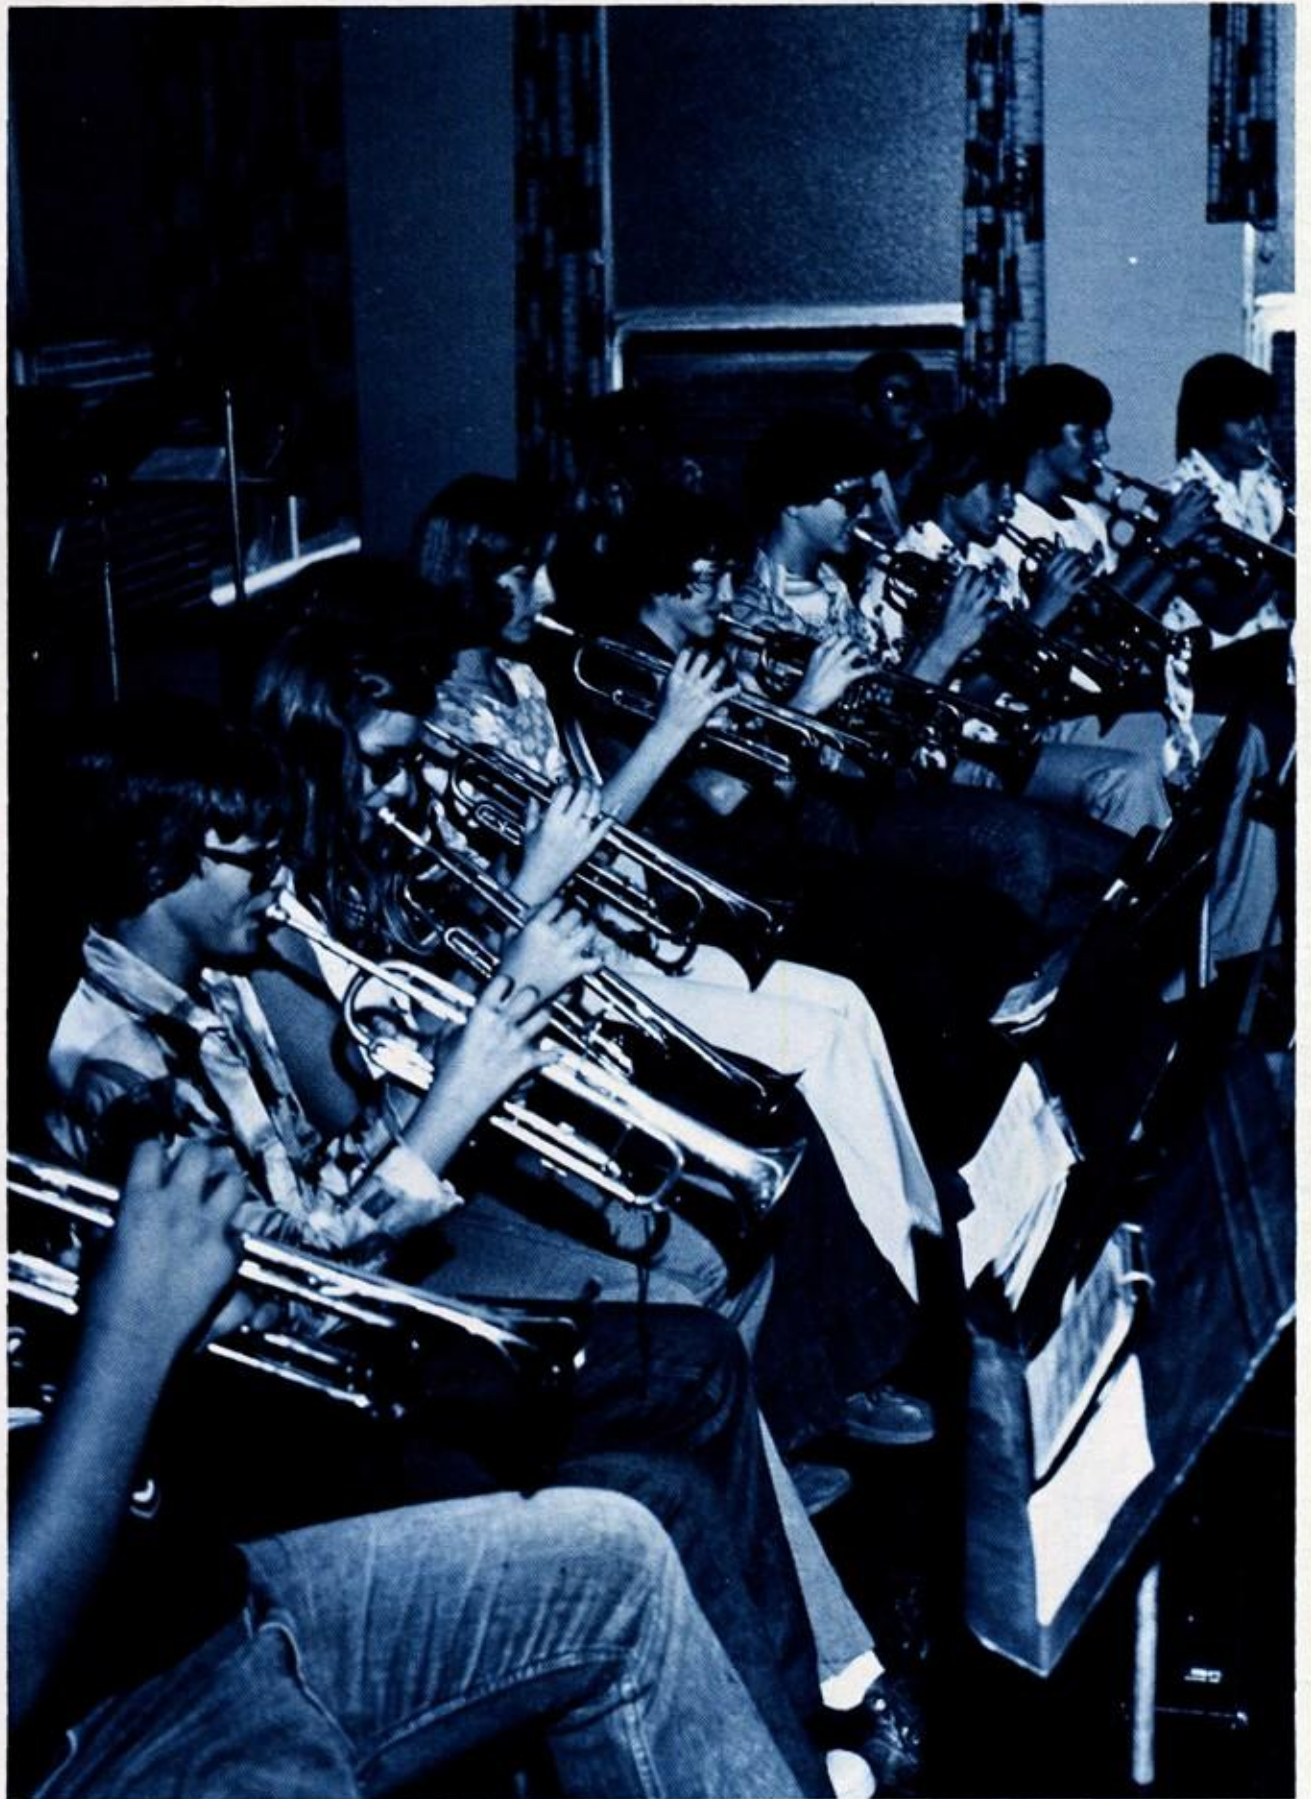

In our evenings, after the ever present homework is out of the way, we still find time for our own personal pursuits. There are hobbies, the company of friends, relaxation. We try new recipes, we sew, we paint, we help others, we work some more. They are the days that will become the school memories that we will never forget.

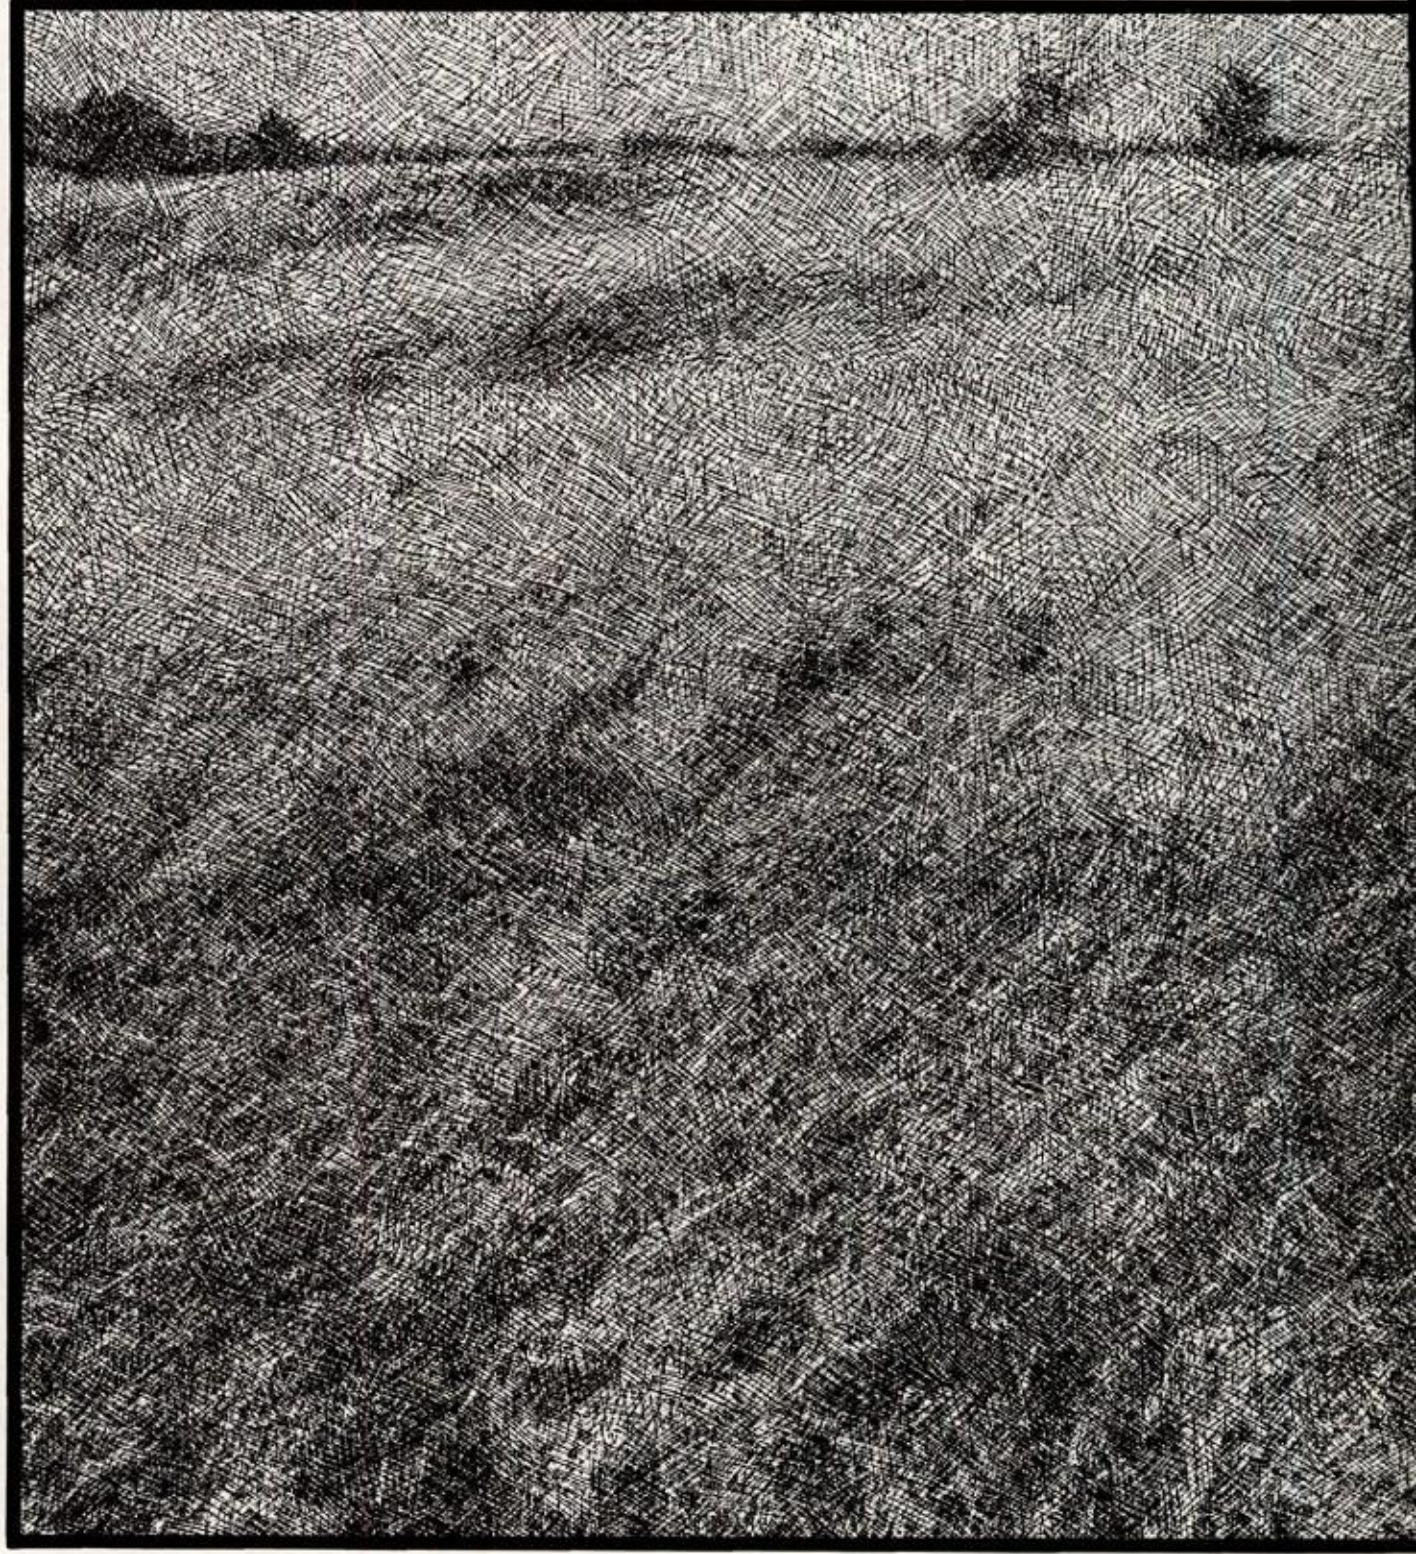

Our Day Ends Late

Shelly, heres to a very nice (but silly) young lady I got to know
better this year. Rem basketball & history & english, but
most of all, rem me. Good luck with Jimmy. (smile)
God Bless you! Luck and success in anything you
may attempt.

Love Susan

As
underclassmen
we are like a
barren field —
so much can
grow there
with the proper
care, the
proper know-
how, the
proper
willingness.

How did you feel about leaving a small school and entering into a high school with more and different students in your classes?

At first I was scared of leaving the grade school for fear of getting lost. I didn't really like the idea of being separated from all of my classmates, but now I'm used to it, and I like it much better.

What does it mean to you to be a student?

A student should be happy to have the opportunity for learning and should always be proud and loyal to his school.

Jill Masquelier

Did you find Fort Cherry disappointing or was it like you expected to find it?

It was what I expected it to be. The teachers are nice, and I enjoy the different clubs we can join. I like pep assemblies - watching the teachers play volleyball was great.

"For every hour spent in class, there should be at least two hours spent out of class in preparation for that subject." Should this be true of high school students as well as college students?

I think the student that wants to study two hours out of class should. If I was doing poorly in a subject or had an exam I would study two hours every night on that particular subject so I could receive a high grade in class.

Should weekends be planned for studying or for recreation?

Weekends should be planned for recreation because I think that you work enough through the week and that is why we get weekends off. However, if at times there are long assignments to be completed, you should be willing to work on weekends, too.

"Sooner or later we all give up, don't we?" Do you believe this is true?

No. If I try something, I won't give up. Some other people, I know, will, but I think it is not right to give up if you really believe in what you are doing.

Has there been a change in homework from grade school to high school?

Yes. I think there's been a big change in homework. Last year I had homework usually every night. This year I do most of my homework in study halls. This enables me to have more free time after school for other activities.

In what way are grades important to you?

I think grades are important because they determine how hard you are working in school.

Marcy Kress

A. Yaworski
T. Yuhas
F. Zelinsky

Do you feel the rules for tardiness are stiff enough?

Yes, because we now are old enough to take on the responsibility of being on time. One tardy per class should be excused, but after that I think we should start buckling down and grow up.

What do you like and dislike about Fort Cherry?

I don't like the way lunches are. I feel they should be as long as a regular period. I also feel that there should be more recreation for all the students, and we should get out at 2:30 every day. I enjoy having home ec, shop, art and music.

Should students miss school for reasons other than health?

No! Since we are given an opportunity to learn, we should take full advantage of this.

Should high school standards be set higher than they are now?

Yes. High school students are usually mature enough to strive for high standards no matter how high they are set.

How much time do you think a student should put into his or her studies?

As long as it takes the student to grasp totally whatever he is studying. If he loses sleep, he loses sleep.

Are teachers usually available to you to discuss personal problems?

Yes. Most of them are usually available and willing to help. More students should take advantage of their availability.

Are Fort Cherry teachers as strict as they should be?

In most cases yes. But there are a few teachers that people abuse because they don't take any disciplinary measures.

What is your idea of a good student?

A good student always tries his best. Even if he isn't doing well in a subject, he'll pay attention and participate in class.

Joe Stanish

To what extent is a student responsible for what he learns?

To a very large extent. Teachers can only present the material. It is our responsibility to learn it.

Do you think most students live up to only what is demanded of them?

I think many of them do because they just don't want to be bothered by anything more. There are some, however, who really work hard and who do a lot of extra things.

What would be some profitable ways for students to spend their summers?

One way would be to get a job. But a very enriching way is to spend it outdoors, learning about the greatest resource we have. Many kids say they are going to close their brain and relax for the summer, but every minute of the day you are learning, whether in or out of school.

If you could be anyone in the world who would you be and why?

My father. Even though he only went to eighth grade, he is a man of high intelligence and great common sense.

How important do you feel discipline is?

Discipline is very important at home, as well as in school. You should be able to discipline yourself in knowing what to do and what not to do.

Are you in school because the law requires you to be here, or are you here because you want to be?

The reason I go to school is because I want to learn and make something of myself.

How close do you feel a teacher and student should be?

A teacher and student should always be close enough so that if the student is having any problems in that class or some other problems in school he won't be embarrassed to go to the teacher and talk to him.

Do you feel that there are enough activities at Fort Cherry?

Fort Cherry has many good activities, and I think everyone can find at least one he is interested in. Having intramurals was a great idea. It gives everyone a chance to compete. The thing I would like to see added the most is more dances.

Can studying, learning, and going to school ever be fun?

Yes, studying, learning, and going to school can be fun. True, it takes a lot of work and effort to do well, but it is even more exciting to challenge and then overcome things which are difficult for us to accomplish.

Will what you learn in school be useful to you mainly for a future career or is it useful also for other reasons?

What one learns in school is important for everything one does in life. It trains you to think logically for yourself and to point out both the right and the wrong in all situations.

Susie McCracken

How important is it for a student to form a good academic record during his high school years?

It is very important. A good academic record promotes a good attitude toward school in particular and toward life in general. Not only is it important during our high school years but it also aids one's progress in future years.

Are you usually pleased with the way you are?

Yes, I am. I'm proud of who I am, what I am, what I stand for, and how I look. I think it is important to have pride in yourself if you expect to get anywhere. Also, I try to keep a good attitude toward people and life. I am very pleased of the way I am.

To what extent will money and success be important in your future life? To what extent will people be important?

I think success should be measured not only in terms of money but also in terms of friendships made. For me friends are more valuable than any amount of money would be without them. So, true success amounts to making many friends and enough money to survive happily with some luxuries.

When China exploded one of her atom bombs, some of the fallout ended in Pennsylvania. What was your reaction to this event?

I think when this happens to a country like the United States, which is also guilty of exploding atomic bombs, it should at least make the country think more carefully before testing another atomic bomb. But I am sad that these things have to happen to "open our eyes." No country should ever do anything that could be harmful to another.

Do you ever feel that studying hard could be a way of helping all of mankind?

Yes. The harder you study the more you learn. This knowledge could help you to secure a job which in an indirect way is a step in helping mankind.

Is it possible to succeed in today's world without a formal education?

Many people I know do not have a formal education and do succeed in today's world. That, however, could be due to the fact that they have had their jobs for a long time. A formal education certainly helps one to find a better job.

To what extent should a parent be involved with a student's studies?

Parents should not become too involved with student studies because the students may become dependent on them. I feel the parents should see to it that the students at least put forth an effort.

How do you feel about disruptive students and what do you think should be done about them?

This is a problem of the teacher, the student, and the principal, not of the classmates. However, I feel that the good students, just by their example of good conduct, could have a favorable influence on them.

Sue Moran

Do you spend much time in contact with nature?

Yes. I enjoy nature and like to spend time in the outdoors. Sometimes, contact with nature seems to be the only thing that's helpful in restoring one's peace of mind.

Do you feel that a close parent-teacher relationship is necessary?

When a student does poorly in a class I think that the parent and teacher should get together and work out the problems. In all cases it may not be the student's fault.

Should more parents visit the school during open house?

Yes. Whether a student is doing well or poorly in a subject, it is always a good idea for parents and teachers to meet.

Are parental prejudices usually passed on to their offspring?

Yes. When children are young, they are very impressionable. They spend most of their time with their parents, and naturally they pick up some of their prejudices.

Is education helpful in eliminating prejudices?

Yes. Knowledge permits one to think and reason for himself. It's probably the only way we have of destroying the false notions we may have grown up with.

How often do you usually become interested in world problems?

I often become concerned with problems in the world today. Keeping informed and up to date on them is the least people can do in today's small, interdependent world.

How much does a student's home life influence his performance in school?

Scholastic achievement depends greatly upon the amount of emphasis and the value placed upon it within the home. Homes that have a good attitude toward it would tend to be cooperative in providing quiet, relaxed environments which are most suitable for study.

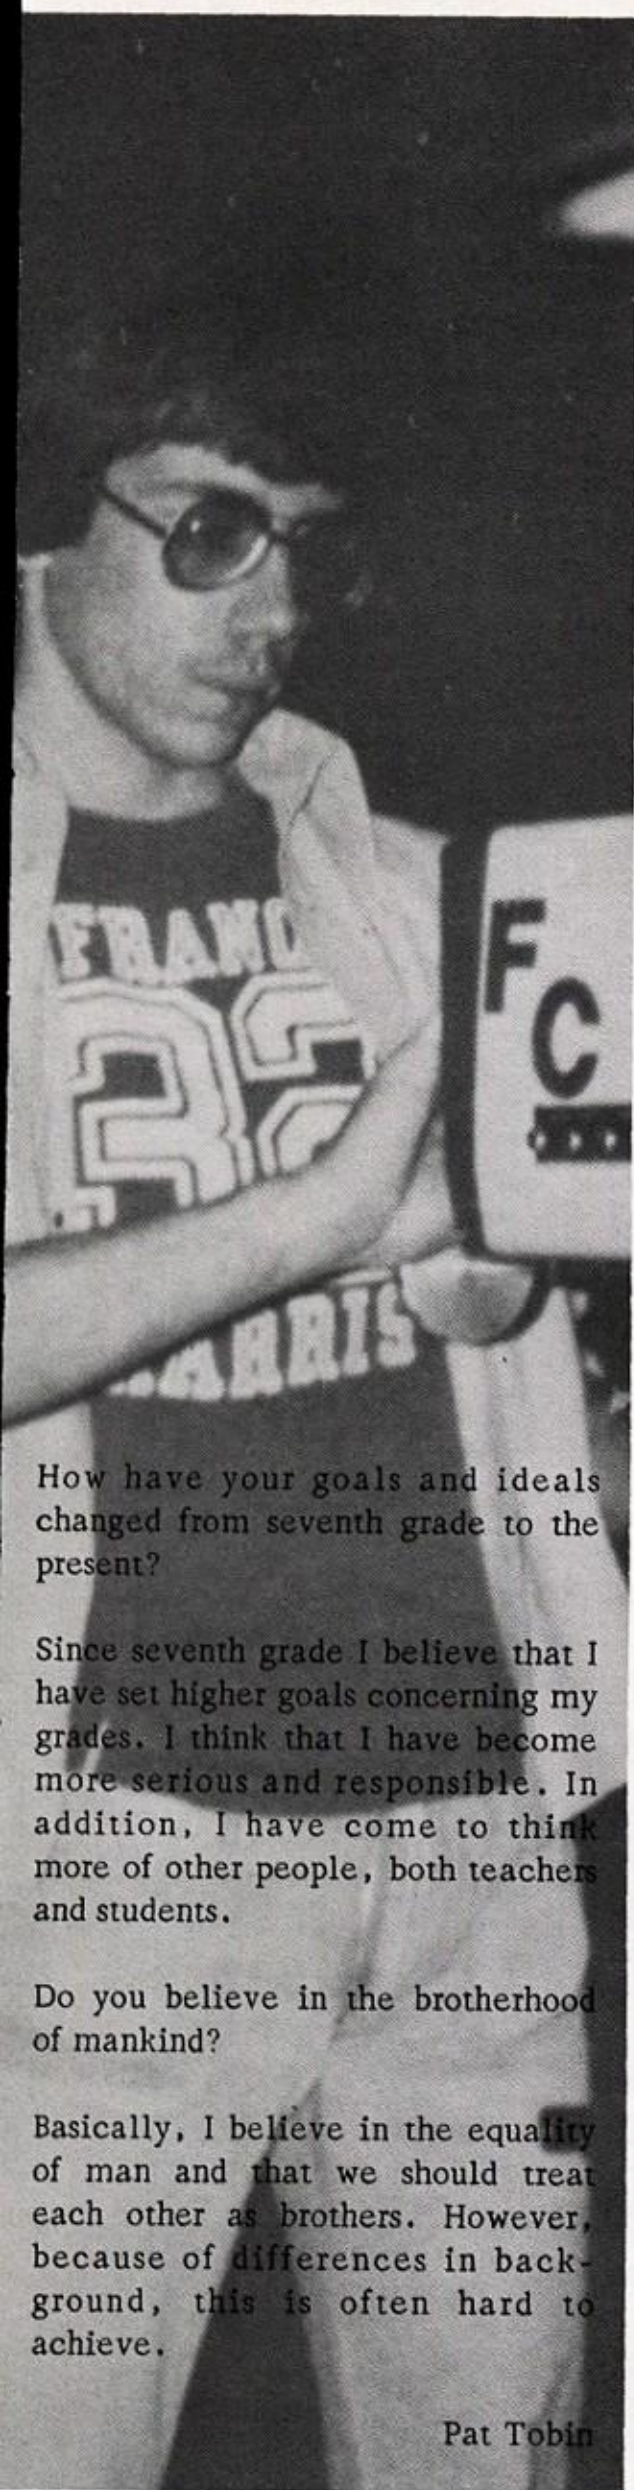

How interested are you in the fine arts? What should be done to arouse more interest in them?

I appreciate and can enjoy the fine arts and would like to see the organizations involved in them receive more appreciation and interest from the students. This interest has to start with support, both financial and moral, from the school administration. Students should also be made more aware of competitions in these fields.

Lori Fulmer

Juniors

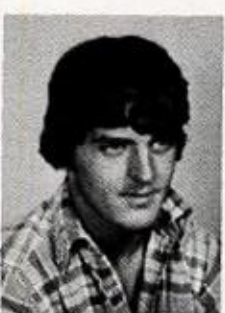

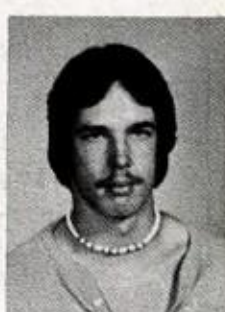

How have your goals and ideals changed from seventh grade to the present?

Since seventh grade I believe that I have set higher goals concerning my grades. I think that I have become more serious and responsible. In addition, I have come to think more of other people, both teachers and students.

Do you believe in the brotherhood of mankind?

Basically, I believe in the equality of man and that we should treat each other as brothers. However, because of differences in background, this is often hard to achieve.

How much outside reading should a student do?

This depends upon the individual student. Someone who is planning to go to college should probably do extra reading in the field he plans to study. This would also help him to prepare for the amount of reading required for college work.

Do you think high school teachers are as demanding in their expectations of a student as they should be?

Some are not demanding enough. They give you assignments and don't really care whether you do them or not. Others are very demanding. They tell you exactly what they expect. They are probably the best teachers we have.

What can be done to change the attitude of disinterested students?

I feel that it is very important for students to be encouraged to work and for the desire to be implanted in them from childhood. I don't think that it can come overnight; it has to grow. We cannot change someone's attitude instantly. We should encourage them, but it takes time.

Are the courses offered at Fort Cherry enough to give you a basic background for your career plans?

I think the courses at Fort Cherry are enough to give us a basic background for our career plans. I do, however, think that more advanced math and history courses would be helpful.

Debbie Eger

What is the most significant change in Fort Cherry in the few years you have attended?

The most significant change in Fort Cherry in the past few years has been in the attitudes and personalities of my friends.

Are you interested in ecology? Should high school students be involved with ecology?

I am interested in ecology and think high school students should get involved. Our generation, more than any other, is going to be faced with the effects of pollution.

Do you ever feel kinship with other human beings in other countries?

In my personal relationship with people from other countries, I have learned that they have the same feelings, hopes, and desires as I have. Yes, I feel I have a strong relationship with people from other countries.

Do you ever wish of doing something for the benefit of all humanity?

Yes. I wish I could be involved in the research to find the cause and cure of cancer, thus helping my family, my friends, and all of humanity.

As the farmer must
decide what crops to
plant, we must decide
what courses to choose
in order to fulfill our
potential. Through our
classes we discover who
we are and how best we
can serve ourselves and
mankind.

ACADEMICS

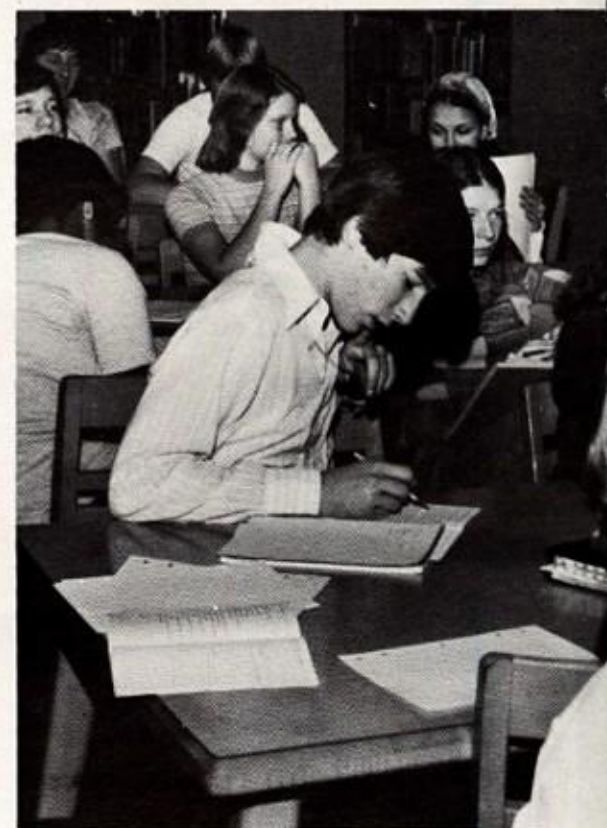

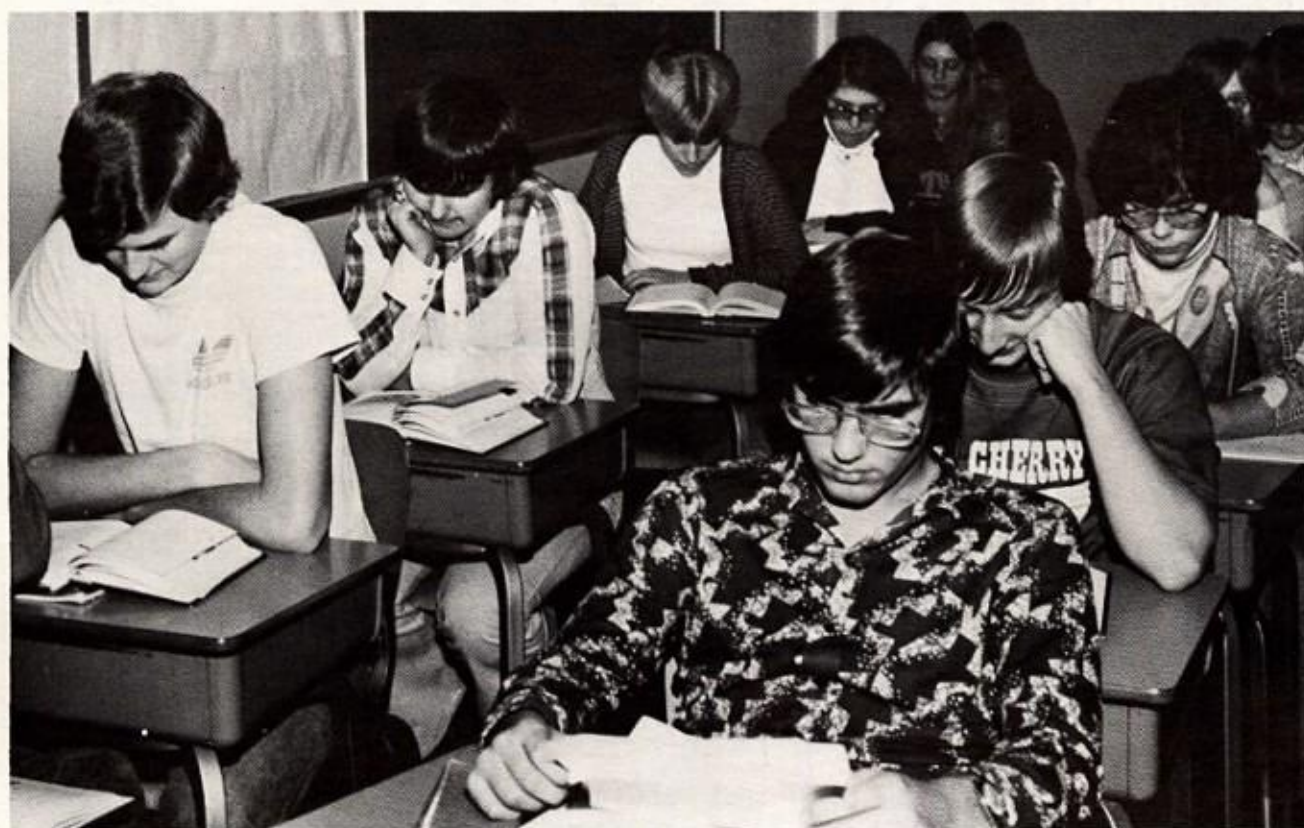

Agriculture is the second largest industry in Pennsylvania. Because the people of Pennsylvania and the surrounding states are able to produce enough food for themselves, the surplus food produced in the western states can be exported to help people in foreign countries have an adequate food supply. In our Ag. classes, we have been prepared not only for the actual farming that many of us will be doing upon graduation, but also for the related courses such as Forestry and Environmental Resources we will be studying in college. We have also learned that unless we learn to use our land wisely, hunger could be a problem in the not too far future. If the breaking up of large farms continues and commercial buildings continue to be built on good farm land, there will be less and less land left for farming. One good trend is that many people are now returning to the country and the rural life. Because of their interest in raising animals and in doing backyard gardening, a greenhouse facility could perhaps be added at Fort Cherry to satisfy not only the Ag. students' interest but also that of the other students. Having learned the complexities of modern farming, we can also report that we are not afraid of doing the actual work. Satisfaction will surely come from knowing that all of mankind will benefit from the work we will be doing.

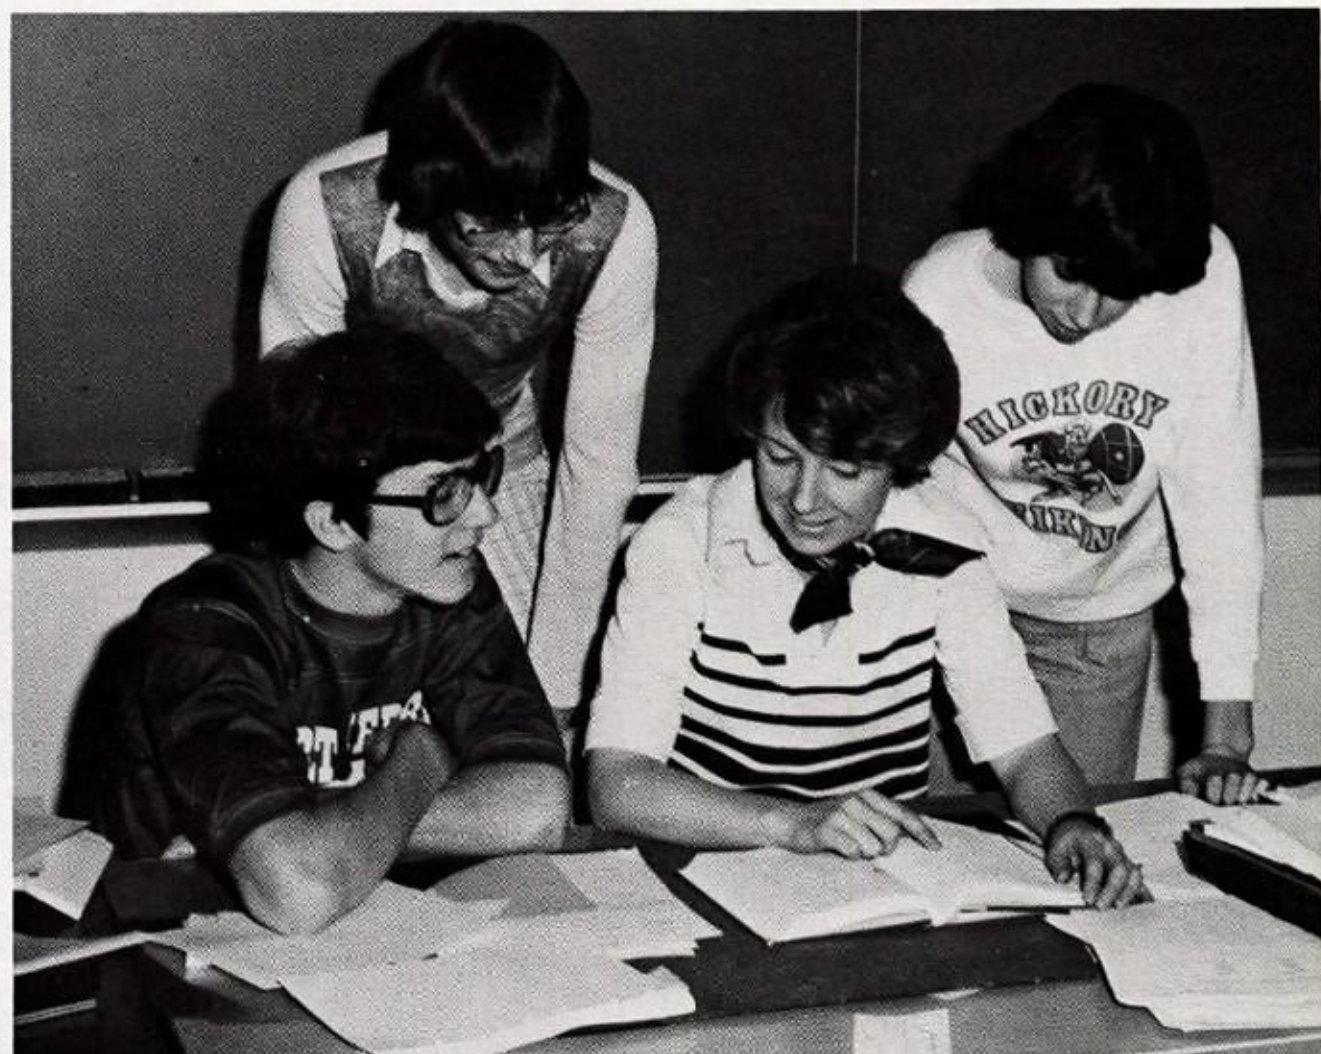

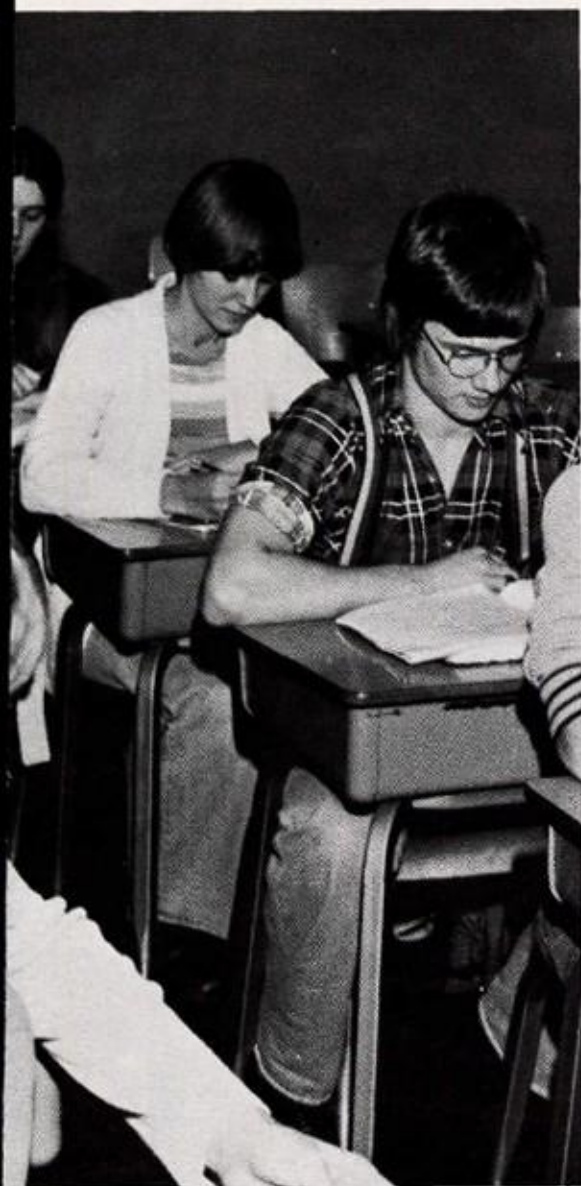

Agriculture Students Ready to Do the Work

Our ability to think logically was developed in our math classes. Besides stressing the application of math to everyday life, these classes also prepared us for the study of higher math courses in college. This year, the addition of a new trig course has greatly improved the math curriculum, and it is hoped that additional semester courses on other math topics will be added in the near future. In 1976, for the first time ever, Fort Cherry math students attended a Math Contest held at California State College.

Math Students Prepared for Life and for College

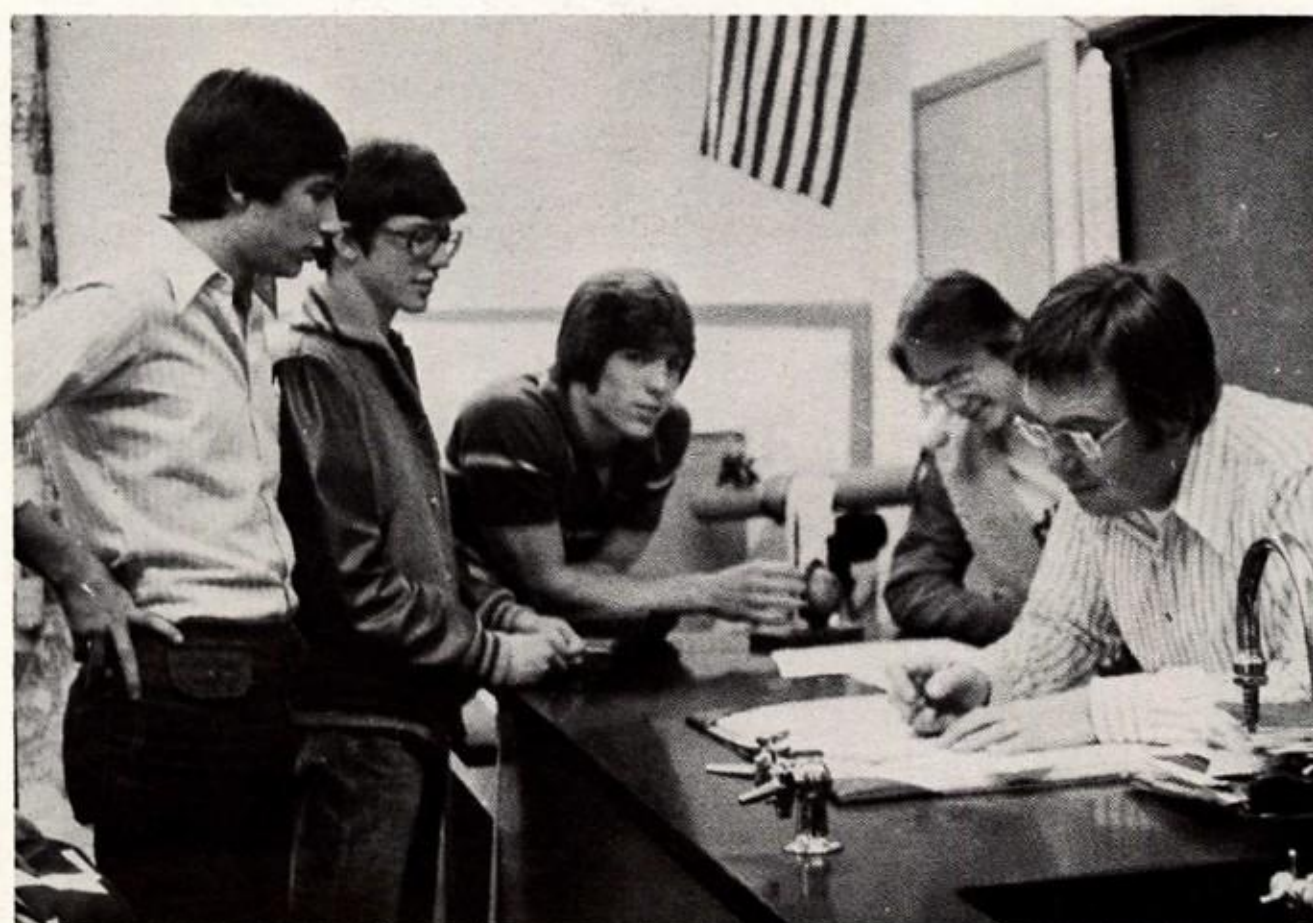

Reality of Business World Brought Into the Classroom

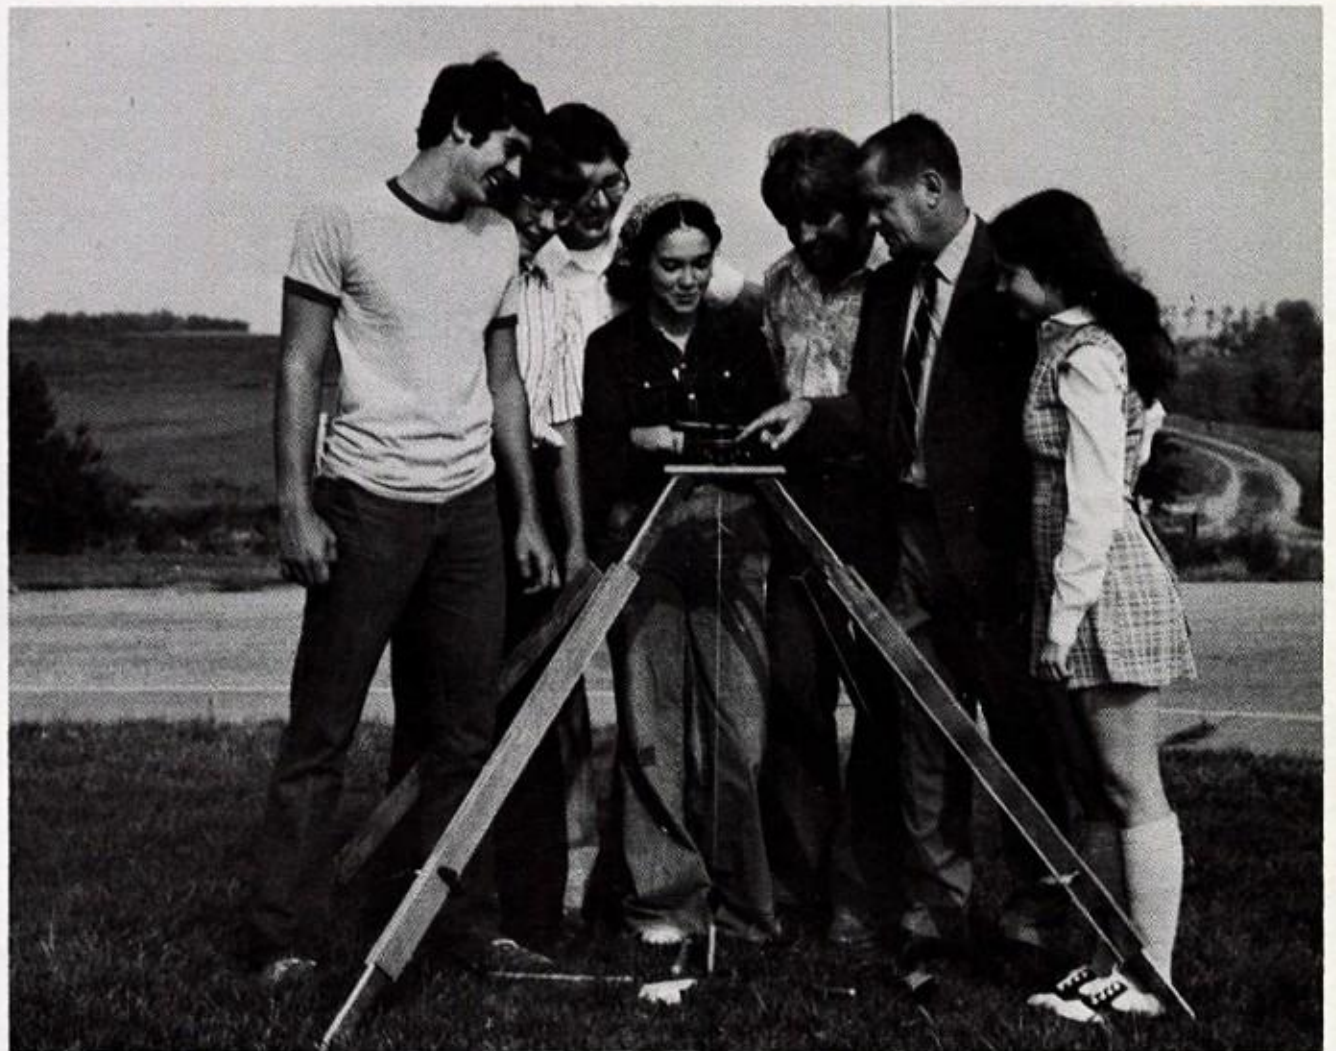

Thanks to the business classes, some of us will be able to join the work force immediately after graduation and begin earning our first pay checks. Mastering the basic skills of these classes was, of course, only a part of the goal. Learning how to get along with our future co-workers was just as important. Few people realize that the inability to get along with others is the main reason for the firing of most office employees. For this reason, many of our classes were structured to bring the reality of the business world into the classroom. By acting either as customers or as office workers, we rotated in the various roles every two weeks, thus gaining the necessary experience. By having to fill in for absent classmates, we also learned of the interdependence existing in all offices.

In Mr. Lauff's classes, we learned science by investigating whatever areas of the subject really interested us during the year. Conducting experiments according to our fancy, we polished rocks; we developed pictures in the darkroom; we mixed chemicals; we even took blood samples from screaming classmates! Our work in Mr. Antoszeski's Advanced Biology class and in Mr. Filosi's Nuclear Science class gave further preparation to those of us who will pursue science as a career upon graduation.

Science Students Pursue Own Interests

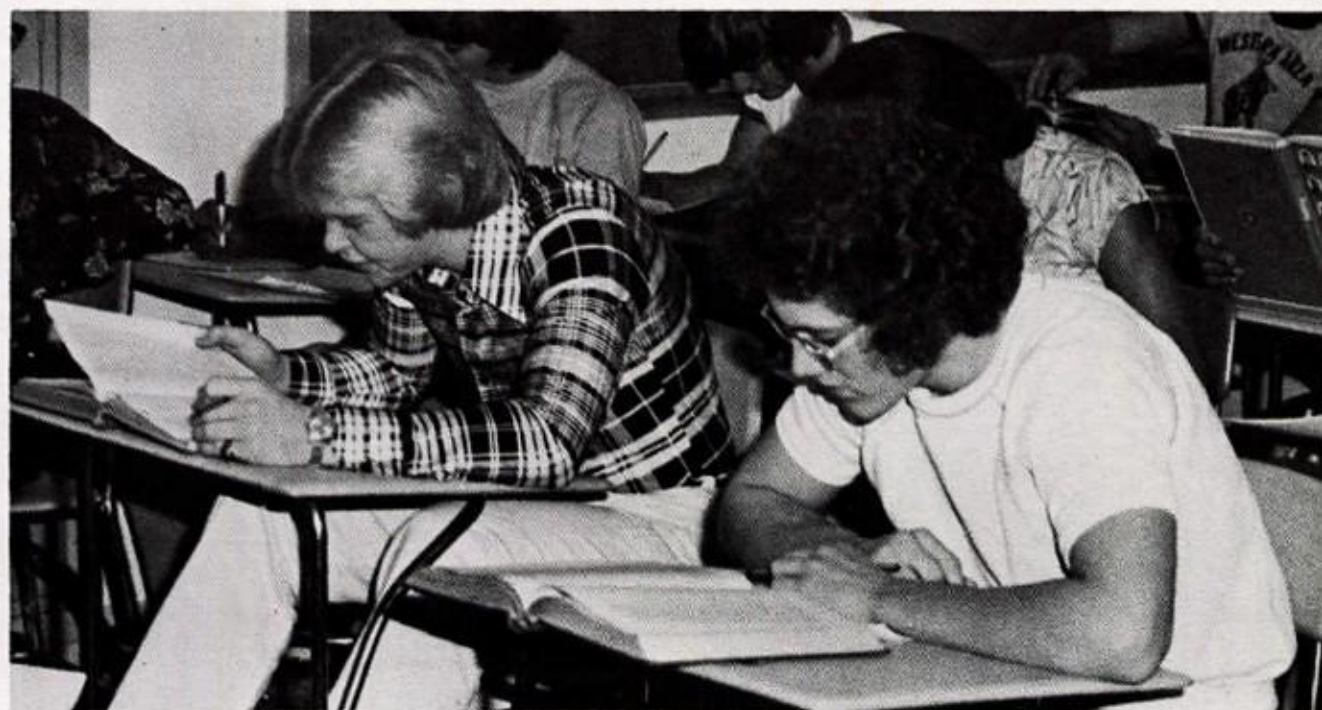

By attending the Western Area Vocational Technical School every other week, we received an opportunity to perfect our skills for the job market upon graduation. We mastered areas such as Drafting, Cosmetology, Business Data Processing, Masonry, Auto Mechanics, and many others. Most courses take three years, and once started we usually stayed and completed them. This year, approximately forty-seven of us attended from Fort Cherry. We enjoyed attending and are now confident that we are ready to join the work force.

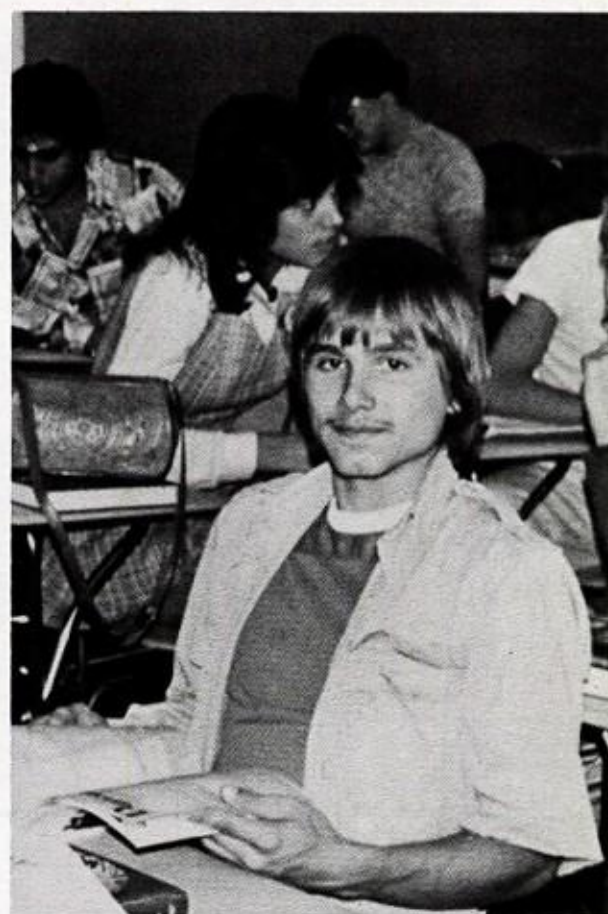

Vo-Tech Students Ready to Join Work Force

The Practical Emphasized in History Classes

Under the supervision of Mr. Sprowls and Mr. Yanosik, we participated in the 1976 presidential election by holding our own mock election. As soon as the committees were formed, we went into action by turning the old reading lab (now Mr. Moran's new office) into a voting station and by conducting day-long debates in the auditorium. It was a practical way of showing how our democracy works, and the student body reacted by voting en masse. (Jimmy Carter won by a few votes.) Another lesson showing how our government is financed will occur when these same teachers will show us how to fill out our income tax forms.

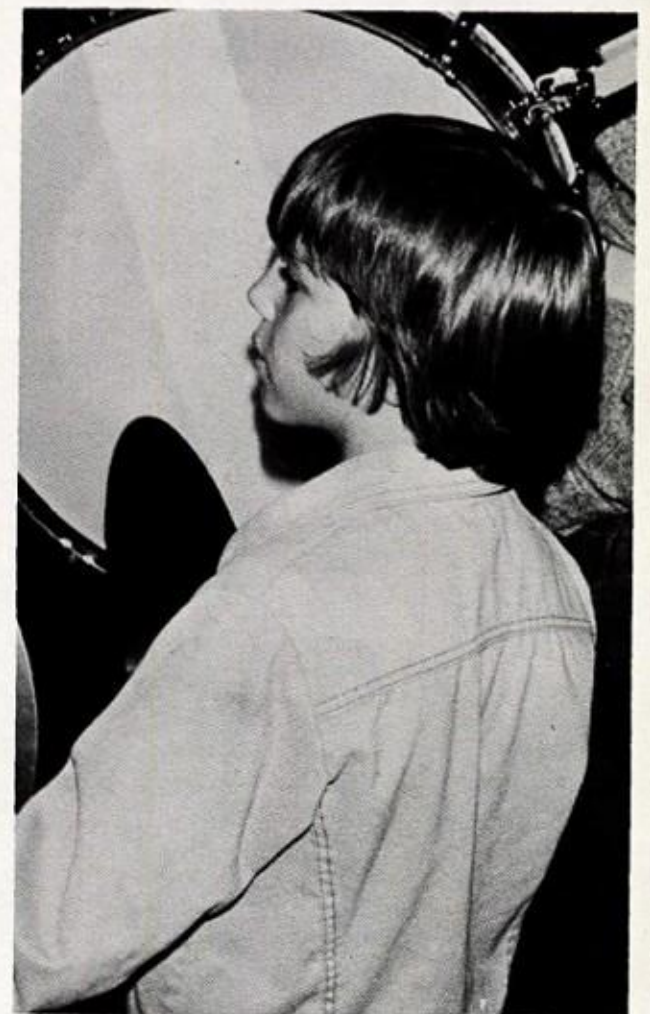

Our Interest in the Fine Arts on the Rise

"What are you doing this weekend, Tom?" "I don't know yet. I may go to Heinz Hall and see Puccini's Opera La Boheme. What are you doing?"

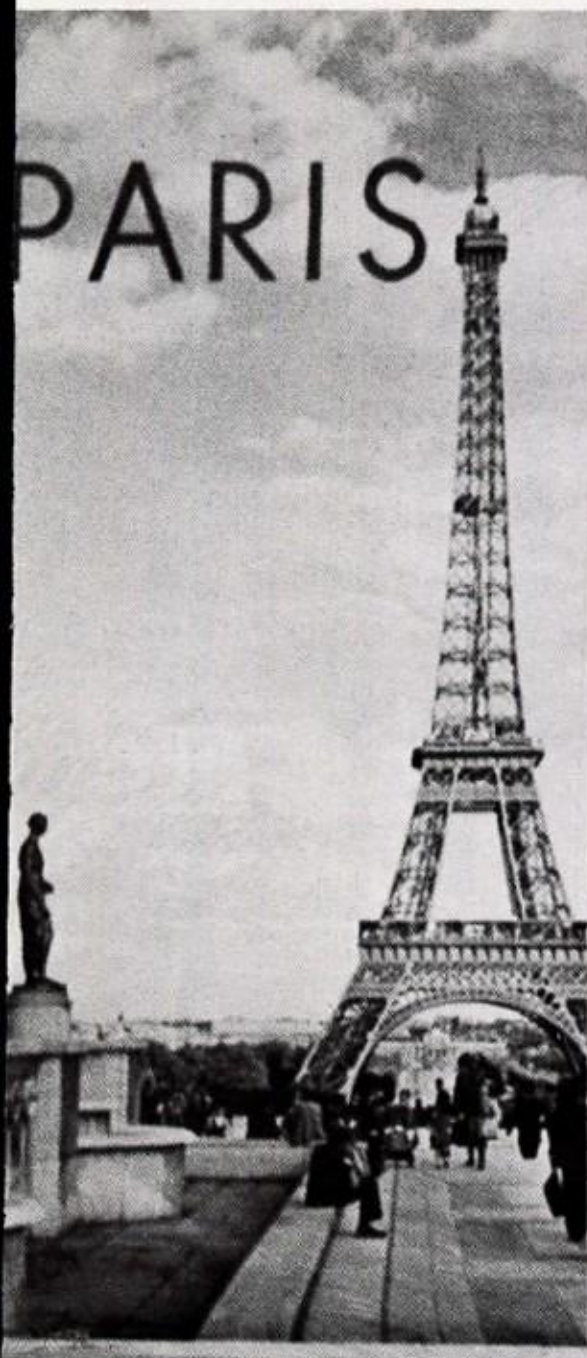

"I'm not sure either. I want to go to Carnegie Museum, but Jan wants to go and see Shakespeare's Henry IV. Maybe I'll just stay home and paint or just practice my flute."

Hearing the above conversations in the halls of Fort Cherry is no longer an unusual occurrence, for our interest in the Fine Arts is definitely on the rise. To help prove our point, we are happy to report an important event along these lines that took place during the week before Christmas vacation. As art students, we organized and conducted the first Art Fair ever to be held at Fort Cherry. With great pride, we displayed (and sold) the masterpieces that we had created in Art class and at home. Sculptures, paintings, plaster carvings, macrame, pen and ink sketches - the office lobby had become a wonderful exhibit hall for our talent and our interest in the field. Pride in our band and choral concerts is also on the increase. Many of us have become serious students of music and voice, and all of us now seem to understand that in music and art there is just as much joy in receiving as there is in giving. We hope in the near future some classes in music theory can be offered and visiting artists will be invited to lecture and to show their works.

As Americans we tend to be a bit too self-centered, but the study of foreign languages certainly helped us in broadening our views. As soon as we got over the study of French and Spanish grammar in levels one and two, we were ready to use our knowledge to learn more about the culture and the social structure of other human beings in other parts of the world. The excitement of reading literary works in the original all of a sudden made the hours of drill in grammar and vocabulary seem worthwhile. The more we were exposed to the language and to the people, the more interested we became. We wrote to pen pals. We saw movies and film strips. We even performed Cinderella in French! It was all part of the work that eventually proved to us that other world cultures can be as interesting and as worthwhile as our own.

Foreign Language Studies Broaden Our View of the World

The farmer's plowing represents the hard work that the teachers and the students must engage in. As the sowers of the seed, the teachers have the responsibility to teach; as students, we have the responsibility to learn.

FACULTY

Superintendent's Message

The Class of 1977 is the first class in the third century of an independent United States and has completed its first goal of high school graduation.

Let us hope that the virtues of integrity, inventiveness, and compassion as propagated by our forefathers will continue into the third century of our history starting with the Class of 1977.

We of the faculty and administration believe in you and your accomplishments while here at Fort Cherry High School. May success continue to follow you as you leave the school system for a broader view of life and its accomplishments.

New Man Tackles Old Problems

Dr. Charles W. White
High School Principal

Midway in his second year as Fort Cherry's high school principal, Dr. White took some time from his busy day and granted an interview to Panorama. What follows is a brief restatement of his thoughts as he kindly answered our questions.

Dr. White's main objective is to see that every student takes full advantage of the educational facilities of the district. He also feels the district is fortunate to have so many faculty members who are dedicated and who have a genuine concern for the welfare of the students.

He said the physical facilities at Fort Cherry are adequate for now and that they provide a good base upon which to build. But since the building is now about 18 years old, some renovation has to be done. Adding a swimming pool and more classroom space, however, is not an immediate goal.

Adding more activities and expanding the intramural program to make it as effective as possible are some of Dr. White's more immediate aims. Increasing the achievement level of students in the basic skill areas is also a major goal.

When asked if he gets much backing from the parents in the district, he said that parental backing at Fort Cherry is good and that this is of primary importance in aiding students to get the most of the educational process.

As he continues in his efforts to improve instruction and the program of studies, Dr. White said his most important goal is to strive in making every student in school proud of Fort Cherry. If that happens, he said, everything else will fall in place.

For our final question, we asked Dr. White to tell us what makes him most happy during the course of his day. His reply came quickly and without hesitation.

"I am most happy," he said, "when I see students exhibiting behavior indicating self-discipline. I am most unhappy when I see disruptive students interfering with the rights of others to learn."

As we thanked Dr. White for the interview, we walked out of his office feeling rather reassured that his determination and hard work will enable him to succeed in all of his goals.

The word "self-discipline" resounded in our minds. We couldn't agree more with Dr. White. Fort Cherry could become, instantly and without cost, a more beautiful and happy place if more and more of our students would learn self-discipline.

Mr. Moran Talks About Discipline

Mr. Richard Moran
Assistant Principal

One day in December, while Mr. Moran was supervising an assembly, we lured him from the auditorium and led him to his new office on the second floor where he, too, like Dr. White, graciously granted us an interview.

Mr. Moran happily reported discipline infractions have dropped. He also agreed with Panorama that this year students seem more serious toward their work.

He said the main objective of the administration is to keep students in school. This is why there have been fewer suspensions and more detentions. Detention, he explained, has been very viable this year.

Mr. Moran said the disciplinary system has been revised by eliminating those rules which cannot be enforced. He said each problem that arises is different and must be handled individually. Trying to change the student's attitude toward the subject he is having difficulty in is one way of solving many problems.

Reechoing Dr. White by saying that the parental support in our school is very good, Mr. Moran said discipline really starts at home. Many problems often lead to the family, and the most chronic ones, he explained, are with those students whose home life is very unstable.

Mr. Moran stated that the excellent staff at Fort Cherry is what really helps greatly. Their confidence in the administration, he said, is another factor that helps in getting things to run smoothly.

Reporting that he enjoys his work very much, Mr. Moran stated he would like to observe more classes than he has because he takes complete enjoyment in being in contact with the educational process itself. But with a job as varied as his - transportation, disciplinary actions, distributing supplies - one has to learn to roll with the punches.

As we walked Mr. Moran back to the auditorium so that he could continue supervising the assembly already in progress, we thanked him for the interview. Watching his smiling face, somehow we could share in his sense of accomplishment. He gave us the feeling that he was proud of Fort Cherry and that, most important, he was happy to be here.

SECRETARIES

MARY McVICKER

Mrs. McVicker Retires

After 38 years of dedicated service to the Fort Cherry School District, Mrs. McVicker will be retiring at the end of the school year. She began working as a secretary at the McDonald High School, and in 1959 she came to Fort Cherry. Besides being a secretary, she is also involved with many other activities. She is an Elder of the Trinity United Presbyterian Church in McDonald, a teacher at Hailey Memorial, and treasurer of the American Legion Auxiliary Unit 485. She also belongs to the Women's Association of Trinity Church and the Women's Club of McDonald. After retiring, Mrs. McVicker plans to travel and to continue working in her church and community groups. Everyone at Fort Cherry wishes Mrs. McVicker a long and happy retirement.

NEW CLUBS FORMED

ART CLUB

OFFICERS: Secretary - E. Shaffer, Sergeant-at-Arms - S. Friday, Treasurer - R. Baker, Vice-President - L. Bellaire, President - J. Dire.

The increased interest in art among our students has resulted in another new club - the Art Club. Sponsored by Miss Donelli, the members of the new organization brought their talent out of the art room and out in the open where the whole school could enjoy them. They set up an exhibit of their projects for both show and sale in the office lobby during the Christmas season. Many students were amazed to find that there really is style, flair, and talent at Fort Cherry as shown by the paintings, crafts, and sculptures done by their own classmates. The Art Club met once a week and not only worked on their own projects, but found the time and ideas to decorate the bulletin boards, put up displays, paint murals, and decorate for the prom and choral concerts. The active interest of the new members sparked a new appreciation of the fine points of art within the student body.

AT FORT CHERRY

ROD AND GUN CLUB

This year the hunters and fishermen of the school organized themselves into the first Fort Cherry Rod and Gun Club. With so much interest and participation in hunting and fishing, it was only natural that the club would go over well with all the outdoorsmen. Of course, the members could only dream of being out in the great outdoors during their meetings but like any group with a common interest, they found plenty to discuss, including the planning of fishing and hunting contests outside of the confines of the school building. A common respect for the rules of the Pennsylvania Game and Fish Commission and a sincere interest in the conservation and preservation of wildlife made the standards for membership high, but the boys who joined were serious about their pastime and wanted to make it as safe and rewarding as possible.

ingredients that
complete the
process of
growing.

ACTIVITIES

Our Student Council, sponsored by Mr. Edmonds, has been very active this year. Starting the year off by sponsoring the Homecoming Event, they did everything from preparing the ballots to getting cars and flowers and presenting a well organized program at the football game. The following evening they held a dance in the high school gym which everyone enjoyed. To get us in the Christmas spirit, they sponsored a semi-formal dance with a live group in an elaborately decorated gym. The turnout was large, and again students were glad they had come. At the height of the football season, they held a Red and Grey Day and awarded felt banners to the best three decorated homerooms. They've also sold Fort Cherry linebacker T-shirts and worked with the cafeteria women to improve food service. Overall, they have done a great job not only in representing us but also in keeping us interested, involved, and active in the school.

ACTIVE STUDENT COUNCIL MEETING STUDENT NEEDS

IMPROVED PEP ASSEMBLIES INSPIRE TEAM TO VICTORY

Pep assemblies have improved greatly this year. They were, in a way, a tribute to the Student Council who encouraged attempts to change. The majorettes, the drill team, and the cheerleaders took turns in planning out each assembly by creating and producing original skits that delighted the student body and inspired the team to victory. "The Wizard of Oz" is an example of the many produced. That day everyone in the gym chanted o-we-o-de-ho-hum, and at night the team turned in a 21-6 victory that left South Park looking like the melted wicked witch of the West. In one of the cheerleaders' skits, "Firemen" put out little flames in the gym, and that night, after a hard-fought, rainy game, with the Northgate Flames, we left them with a very wet 20-13 loss. Our winning season, we are sure, was the result of the inspirational assemblies.

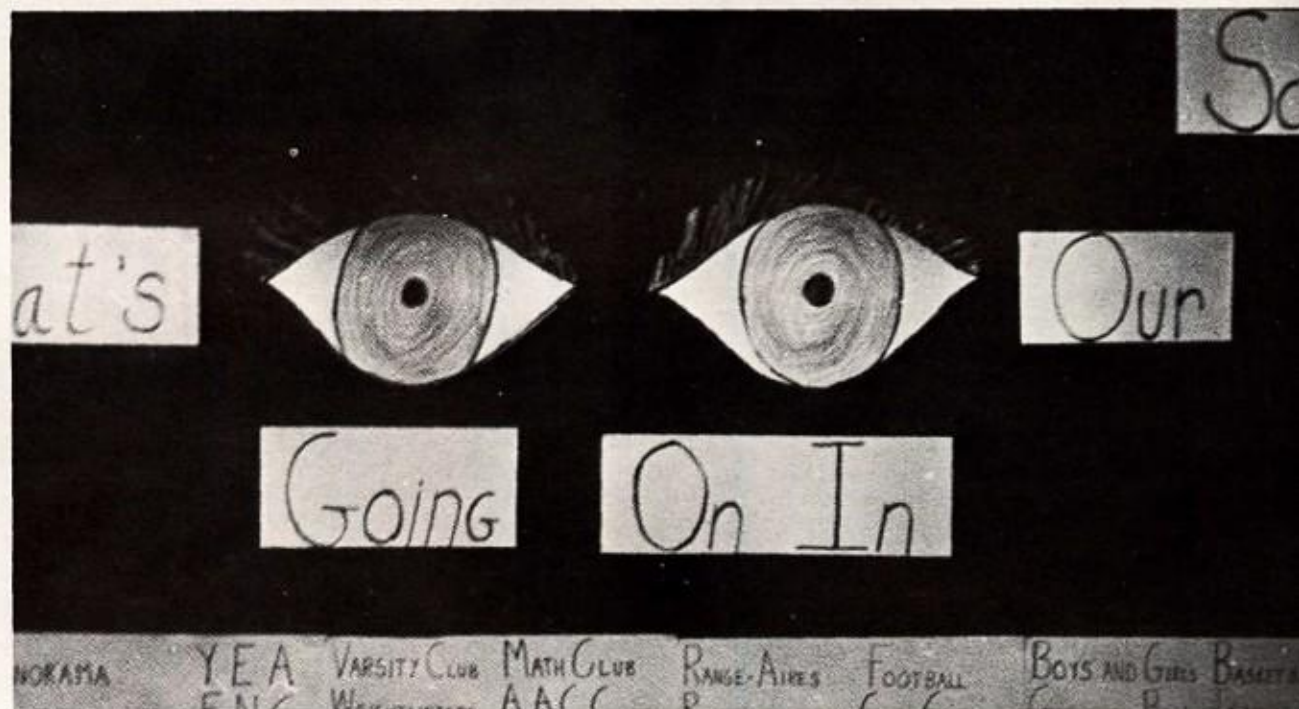

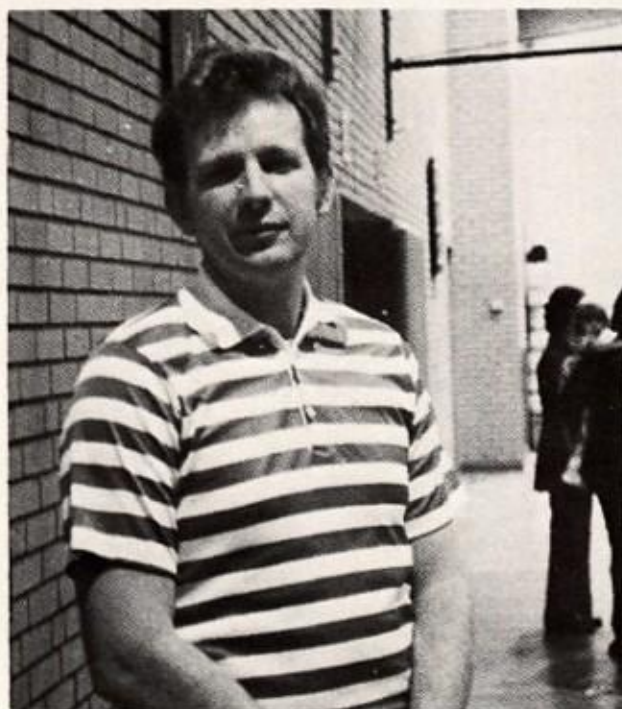

LUANN GATTEN HOMECOMING QUEEN

Throughout the week of October 17, six girls, LuAnn Gatten, Nancy McCaffrey, Carla Peck, Diane Phillips, Sherry Phillips, and Kathleen Shumaker - all chosen by the Senior high students - were busy buying gowns and choosing their escorts for Homecoming. Homecoming was presented October 22, prior to the Fort Cherry-West Allegheny football game. After driving on to the field in luxurious cars, the girls and their escorts stood in the cold, brisk air awaiting the announcement of the queen. The big moment finally arrived, and LuAnn Gatten was crowned queen. At this time, the Student Council presented a bouquet of roses to the queen and bouquets of carnations to the other girls. On Saturday evening, the Homecoming festivities came to a close with a dance held in honor of LuAnn Gatten and her court. At the dance the girls were given small charms to commemorate the occasion. This festivity was one of Fort Cherry's finest and will be long remembered by each of these girls and all those who were a part of it.

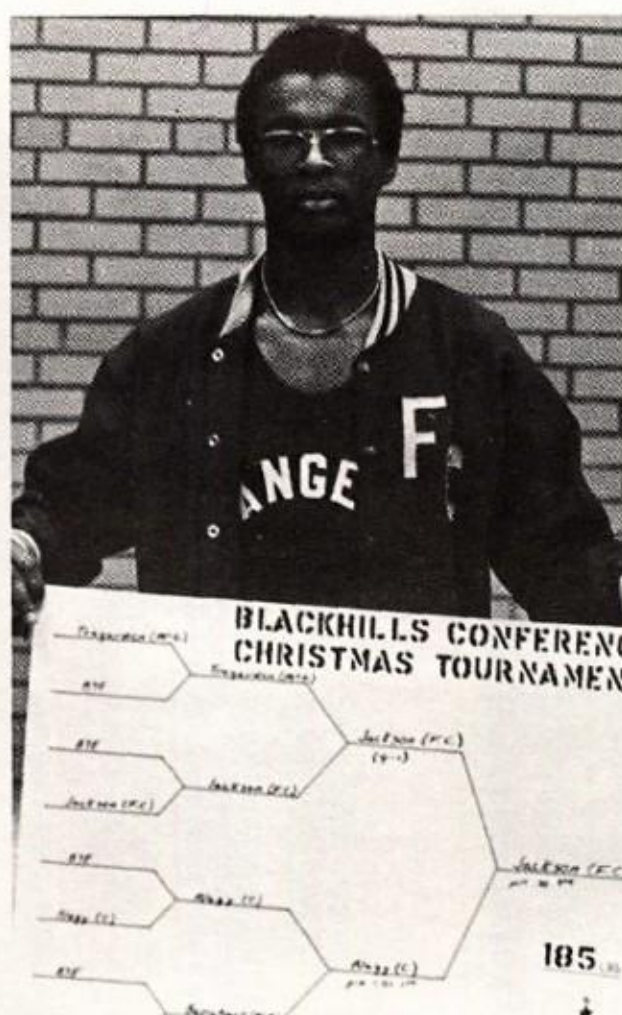

INTERESTED PARENTS ENJOY OPEN HOUSE

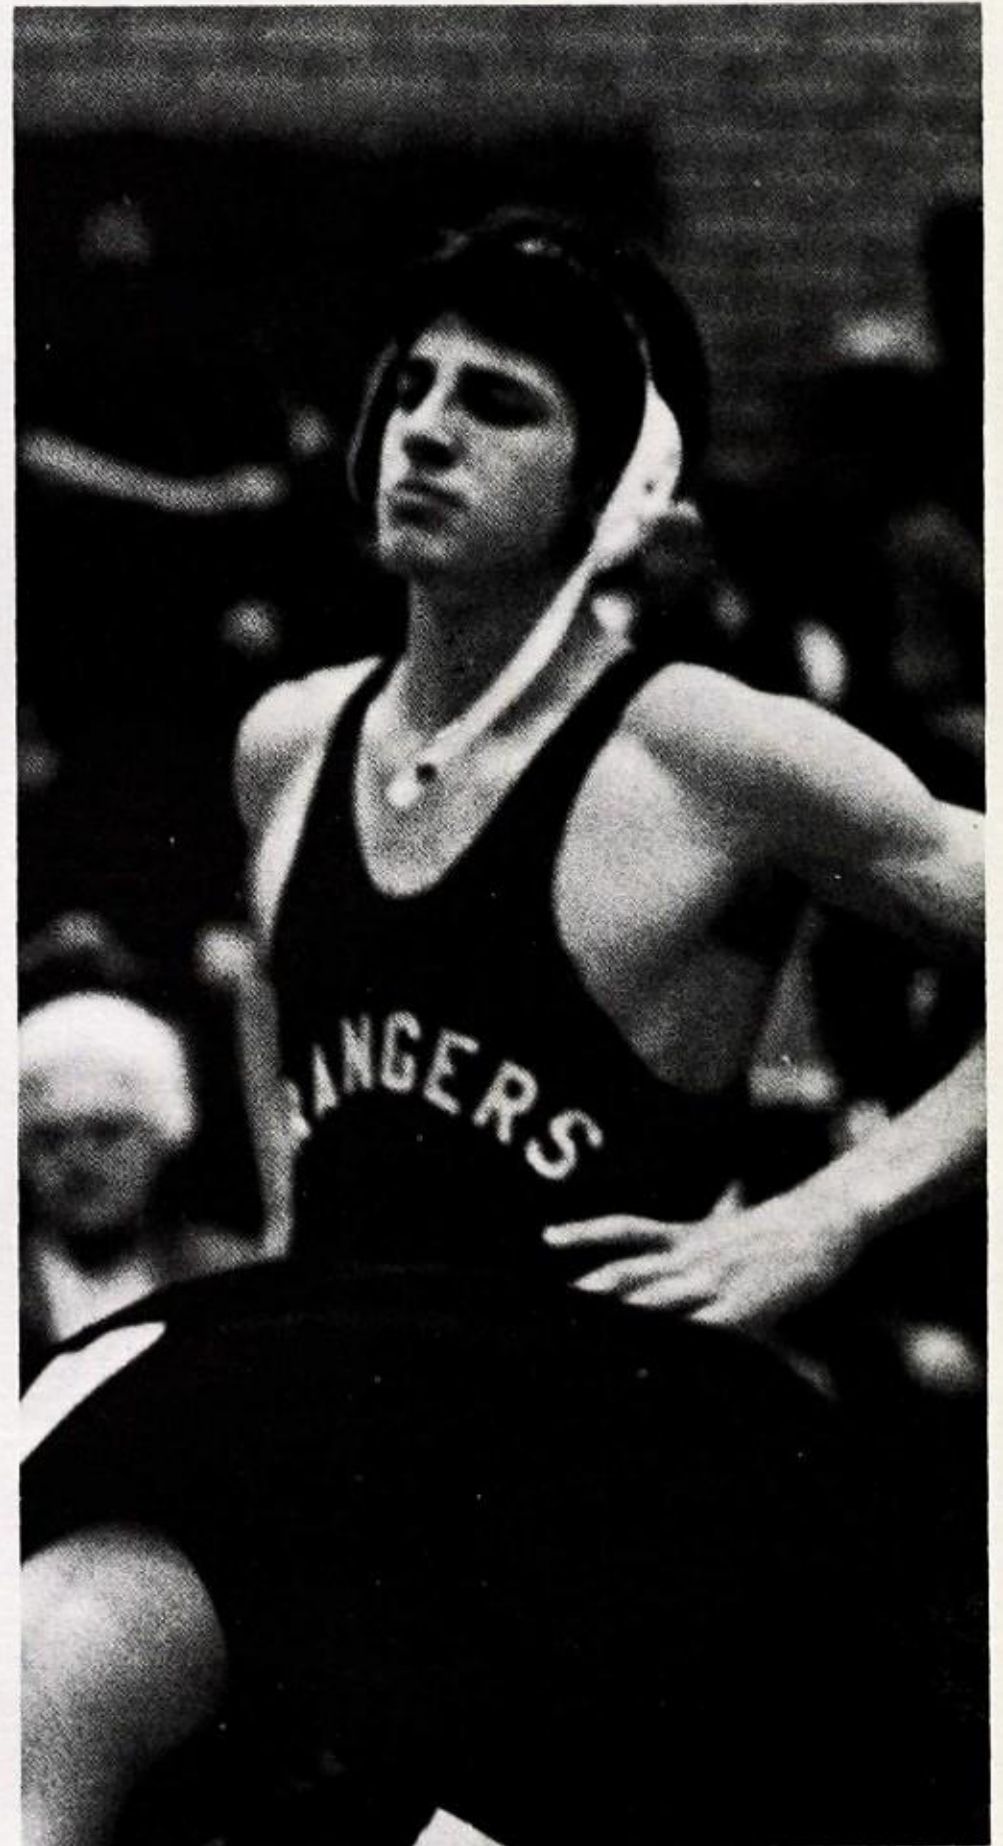

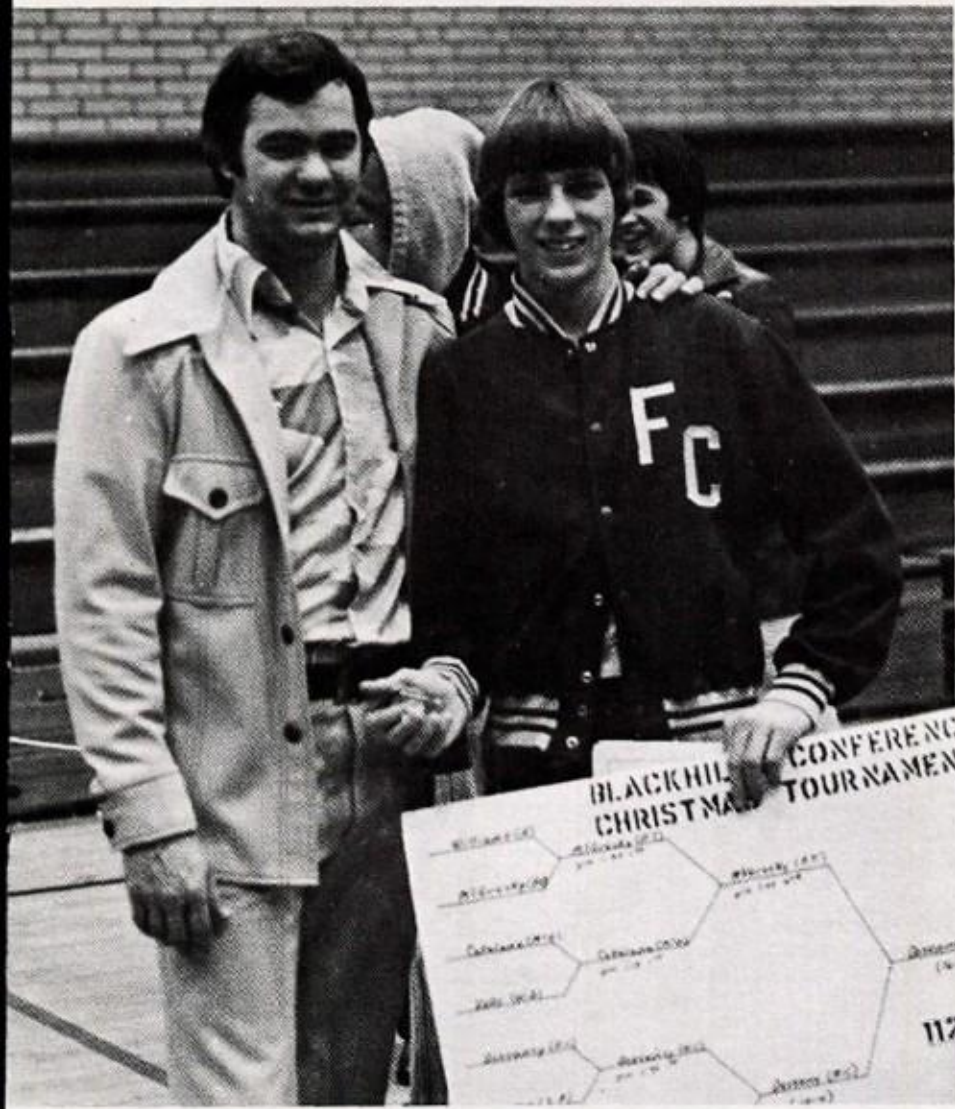

For the past two years Open House at Fort Cherry has been conducted in a different manner. Held on Monday November 15, the two hours between 7:00 and 9:00 were divided in seven mini-periods to enable interested parents to follow their children's day classes in the course of the evening. During each "period" the teachers presented a short talk explaining the course and how it was being taught. (Parents who wanted to know more specific information about their children had already been invited to visit the school on a previous date.) Y.E.A. members were on hand at strategic places throughout the school to act as ushers and guides. As an added interest, the newly formed "MODrigals" opened their regular Monday night rehearsal to any parents and students who wandered in to listen to the practice and get an idea of the school's choral department. A similar program was under way on the stage with a trumpet quartet representing our band. Both parents and teachers enjoyed the new way of conducting Open House.

For the first time ever, the Black Hills Conference Wrestling Tournaments were held in the Fort Cherry gymnasium. The first round took place Friday night, December 17, before a packed gymnasium. The second round was held Saturday afternoon, followed by the Parade of Champions and the exciting final round that evening. Fort Cherry came out of the finals with four champions - Rich Deveany at 112, Joe Zombek at 167, Gary Jackson at 185, and Dave Femovich in the heavyweight bout. Zombek and Jackson both scored falls, Deveany scored a 16-0 superior decision, and Femovich took a 5-3 decision. Second place winners for F.C. were Cary Cowden (138) and Hoagy Gregg (145). F.C. placed second as a team, led only by McGuffey. Third place went to Carlynton followed by Peters Township, South Park, Avonworth, and West Allegheny. Under the direction of Mr. Lauff, everything went smoothly, and Fort Cherry was proud to play host to its competitors. Students helped also, keeping score for individuals and teams, marking elimination brackets and selling programs. Among the students who helped were Debbie Kinser, Mary McLaughlin, Barb Dolina, and Diane Phillips.

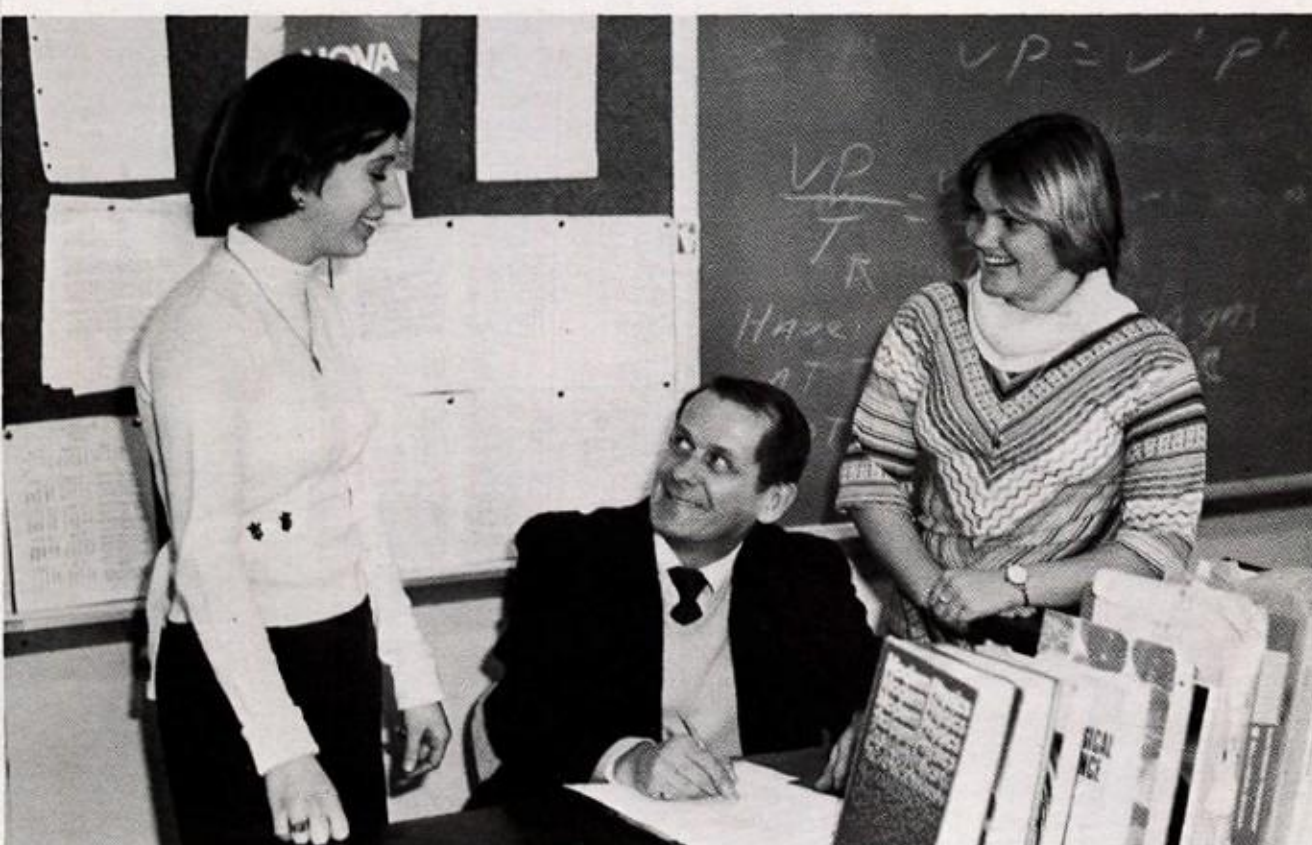

F.C. HOSTS WRESTLING TOURNAMENTS

EDUCATIONAL EXPERIENCES GAINED THROUGH FIELD TRIPS

Field trips have become important cultural and social learning experiences. During the course of the year many F.C. groups travel beyond the boundaries of the school to take part in such activities. The cheerleaders began by sending seven girls to a summer camp at West Virginia Wesleyan to learn new cheers and routines. The Ranger Band, directed by Mr. Jack Proble and accompanied by the Rangerettes and the Majorettes, participated in a parade celebration held at Kennywood Amusement Park. (The band and the majorettes also performed for the patients at Western State Hospital.) Members of the Pinnacle Staff spent a day at Point Park College to learn new techniques in putting together a newspaper, and the editor and co-editors of the Panorama Staff went to Robert Morris College to gain ideas to produce a better yearbook. Kansas City was the site of the National FFA Convention held annually. Once again, we were well represented by Mr. Carter and his vo-ag students. Senior high math students participated in a math contest at California State College, and the Juniors gained insight and knowledge by attending the annual College Fair at the Civic Arena. The French Department traveled to two different areas. They listened to a French rock group at Pittsburgh's Syria Mosque and took an extended visit to French Canada's historical cities of Montreal and Quebec. Two high school seniors, Kim Kosak and Natalie Ruschell, along with Mr. Lauff, were invited to Penn State University Park for a Science Symposium to listen to various lectures on experiments and new discoveries in the field of science. Finally, Mr. Tuma and his Rangerettes and Range-Aires, for the first time in Fort Cherry history, plan to travel out of state to perform in Washington, D.C.

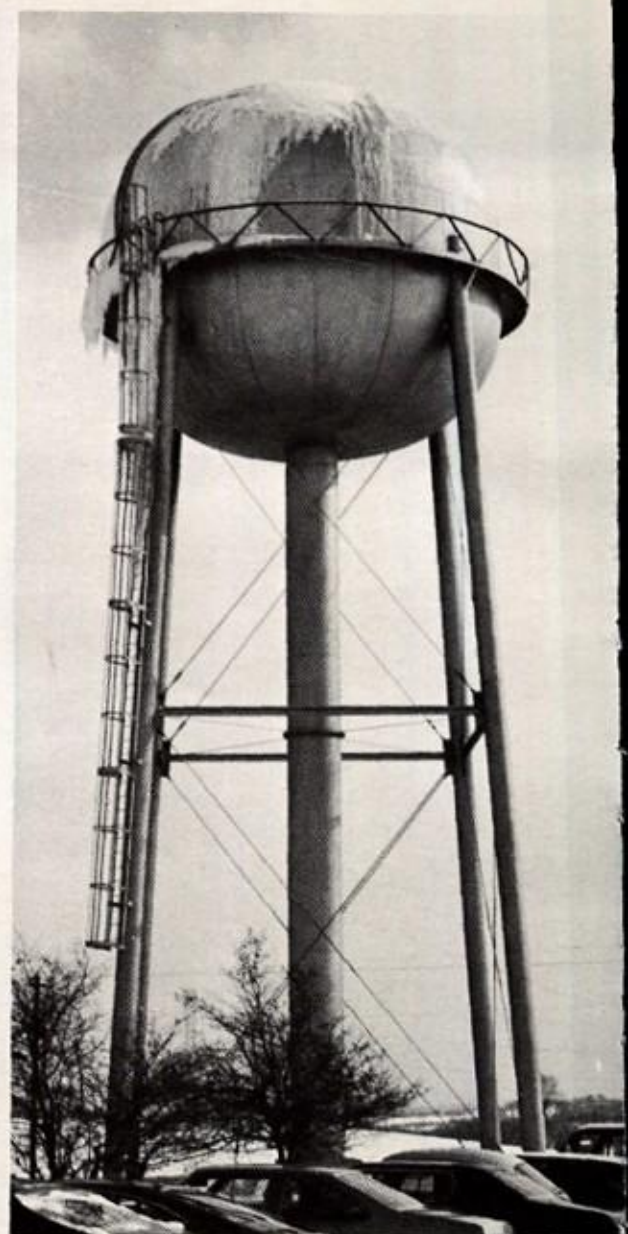

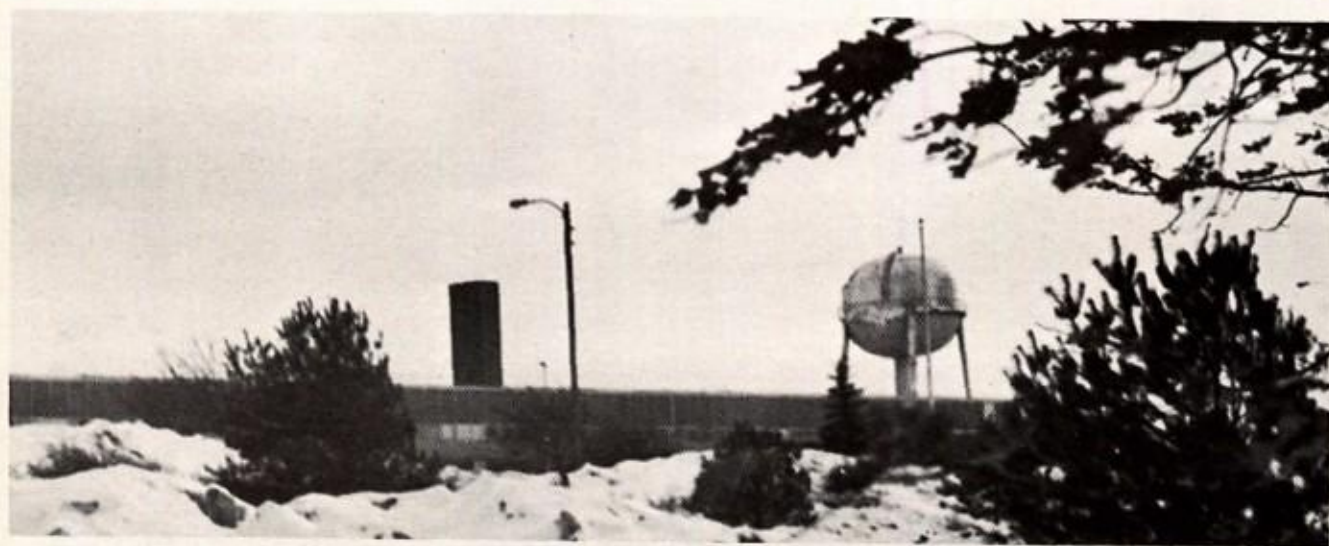

JR. HIGH STUDENT COUNCIL REORGANIZED

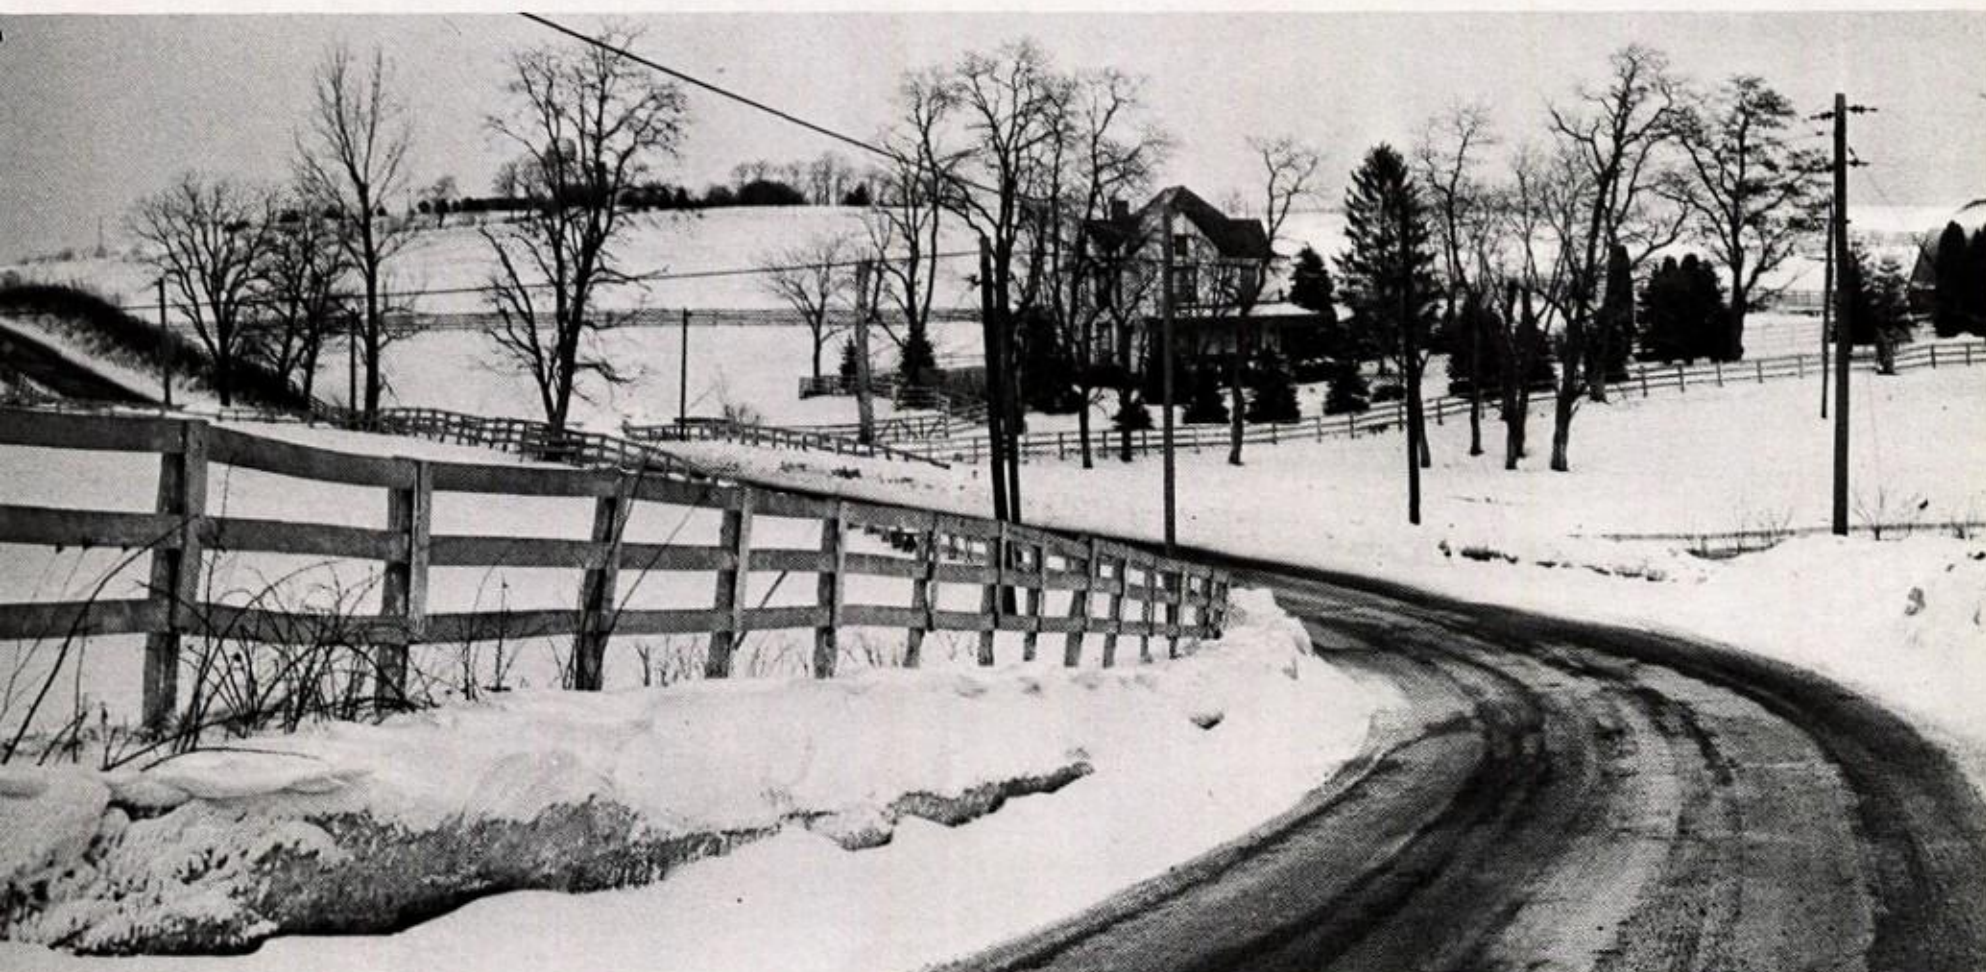

For the first time in six years, a Jr. High Student Council has been reorganized. Mr. Hughey, their sponsor, saw the need for the council, got them started by holding an election in mid fall, and things have been going at top speed ever since. The bulletin board contest at Christmas and the door decorating contest for sports are just two of the school-wide events sponsored by them thus far. We congratulate the new council and wish them success in years to come.

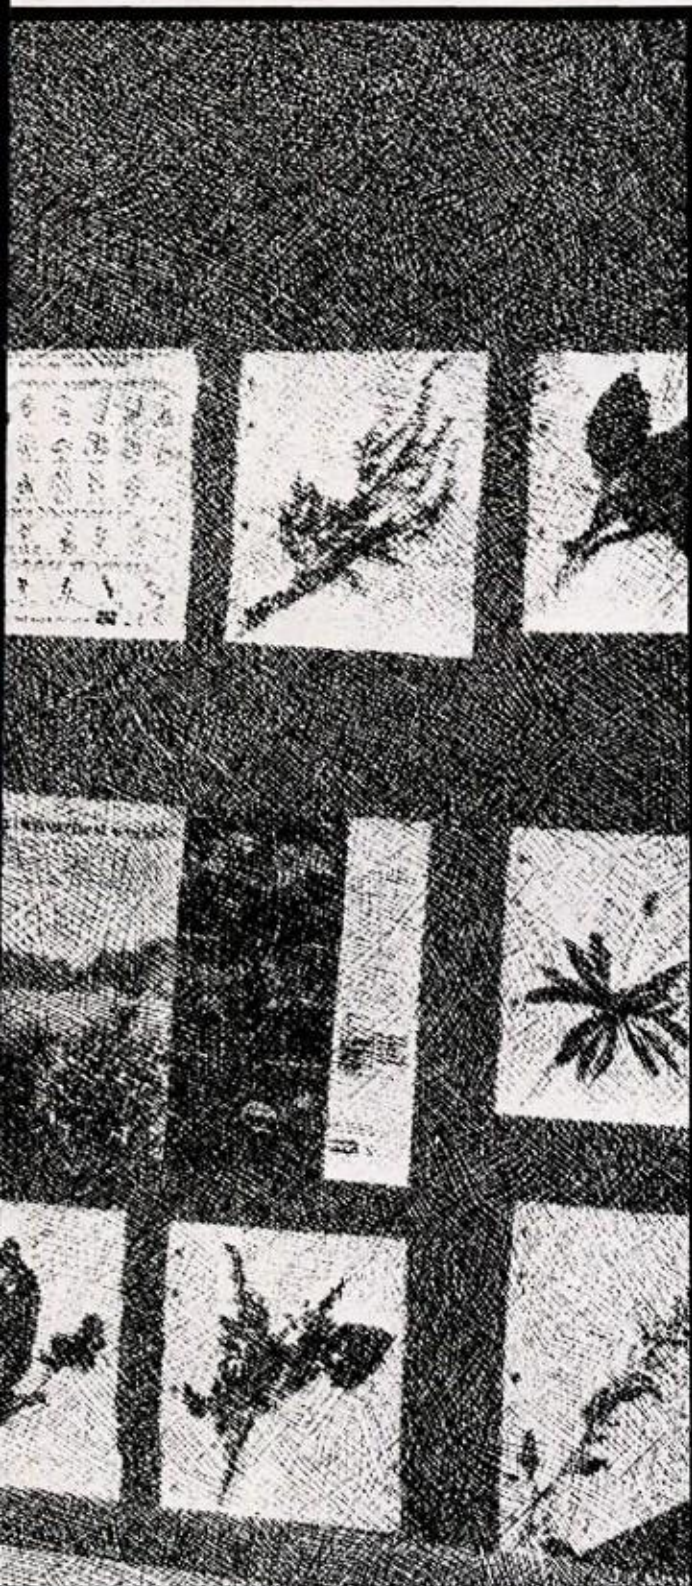

HARSH WINTER CLOSES SCHOOLS; CURTAILS ACTIVITIES

The beginning of 1977 found the Eastern United States facing one of the harshest winters in recorded history. For months the temperatures plunged to subzero levels and remained there. As a result of low gas supplies and increased gas usage a period of emergency followed. Schools and businesses were forced to close and unemployment rose to temporary high levels. On January twenty-sixth, Governor Shapp ordered that all schools in Pennsylvania close for three days. However, because of the natural gas shortage, Fort Cherry schools found it necessary to remain closed through February tenth. As a result many changes were made in the normal schedules and plans of the school district during the emergency. Hickory and Robinson elementary schools remained closed, and students who attended those schools were bused to McDonald and Midway respectively. From Feb. 10 to approximately the middle of March the school district operated on half day sessions starting at 10:35 a.m. and dismissing at 2:40 p.m. Thermostats were set at 62 degrees, as ordered by the governor, and all cafeterias were closed. All activities and clubs (except varsity athletics) were cancelled until the end of the emergency period and athletic events were held during daylight hours only, as the high school building was closed at 6:00 p.m. each day and remained closed each weekend. To meet state requirements of one hundred eighty school days it was necessary for the school board to revise the school calendar by adjusting the Easter vacation period and by adding make-up days in June. As a result baccalaureate and commencement dates were moved back. At a school board meeting, Dr. White noted that some long range plans would have to be made to solve similar problems in future years.

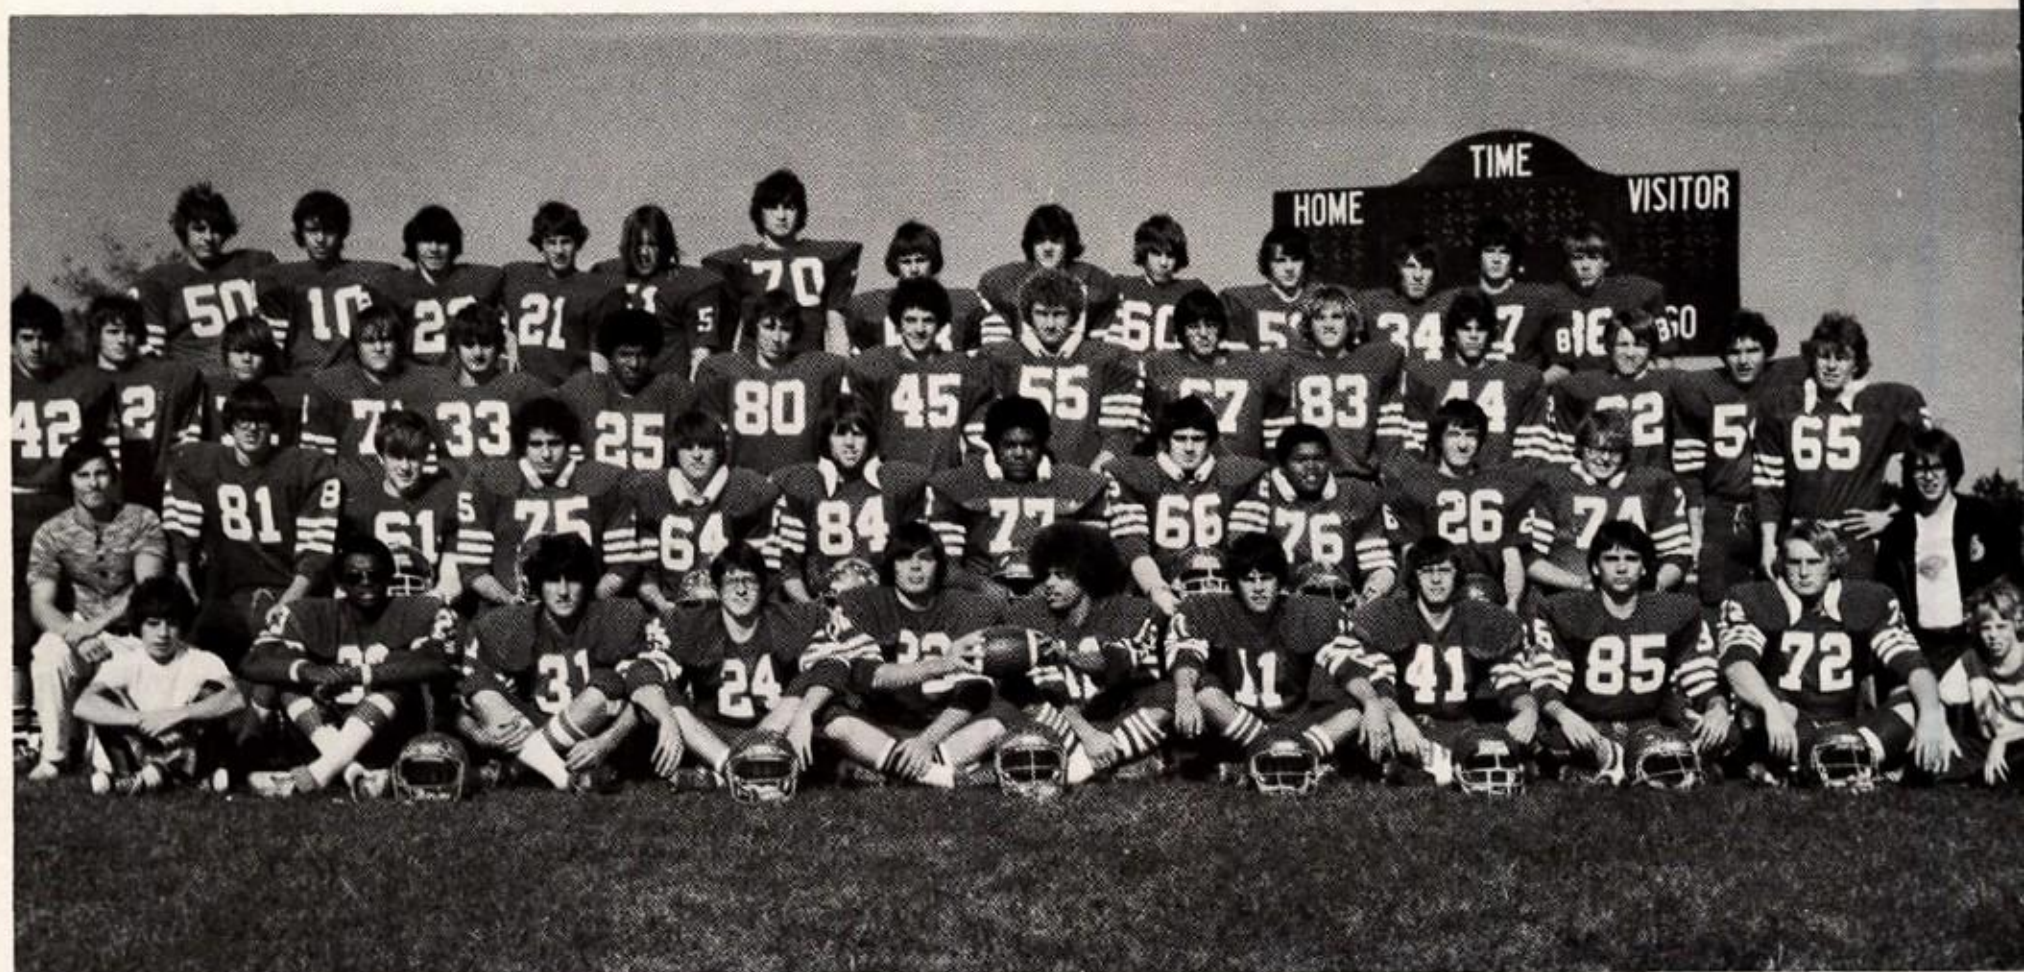

By participating
in sports, we
struggle against
our foes just as
the farmer
struggles against
weeds, insects,
and disease.
Through sports
we build our
bodies and our
characters.

28	West Allegheny	0
47	Quaker Valley	6
6	Peters Township	20

The Fort Cherry Varsity Football Team closed out its 1976 season with 6 victories, 2 defeats, and 1 tie. The record, however, was not indicative of the team's ability as most of the play this season was electrifying. Their heartbreaking loss to Peters Township halted them in their race for the Class AA title for the third year in a row. A highlight of the season was the 21-13 victory over favored Northgate.

Dave Femovich, Gary Jackson, Joe Zombek, and Kevin Thornton were picked for the Black Hills Conference team. Barry Johnston led the team in tackles with 61, followed closely by Martin Soltis, Wes Bruce, Jim Coleman, and Ed Panizza. Willis Chiff led the team in scoring with 70 points followed by Barry Johnston, Gary Jackson, and Kevin Thornton. The excitement and thrills that the '76 team has provided will bring back fond memories for us the rest of our lives. Congratulations to the football team and coaches for another highly successful season.

Despite the rain, mud, and cold weather the cross country team and Coach King had to practice and compete in, they worked their way to the best record in Fort Cherry cross country history, boasting 13 wins with only 3 losses. This fine record, a remarkable improvement over the 1 win-11 loss record the team held last year, put the Ranger runners in 11th place in the W.P.I.A.L. Bob Lucarini placed seventh in the W.P.I.A.L. qualifiers where the team placed fifth, and seventeenth in the W.P.I.A.L. regionals, where the team placed eleventh. Bob also set a new school record, running the three-mile course in 17:17. The team placed fourth at the Frazier Invitational with Lucarini placing second and Scott Cook placing ninth. Since the team will lose only one runner to graduation, their hopes are high for an even better season next year.

SR. HIGH GOLF

The golf team earned another successful season this year, with a record of 9 wins and only 1 loss in Section 16 play. This tied them with Trinity for the number one spot in the section. However, a disappointing 10½ to 5½ loss to Trinity in the playoff for the title left them in second place, but not for long. Three F.C. golfers, Allan Danjou, Jack Kress, and Kevin Coufman came back to win the First Annual Black Hills Conference Championship, defeating Peters Township by 2 strokes. In the W.P.I.A.L. Individual Tournament, Jack Kress, Dave Slates, and Jim Snatchko were three of only five qualifiers from Section 16. Coach Janosik and his outstanding team should be recognized and congratulated for their success.

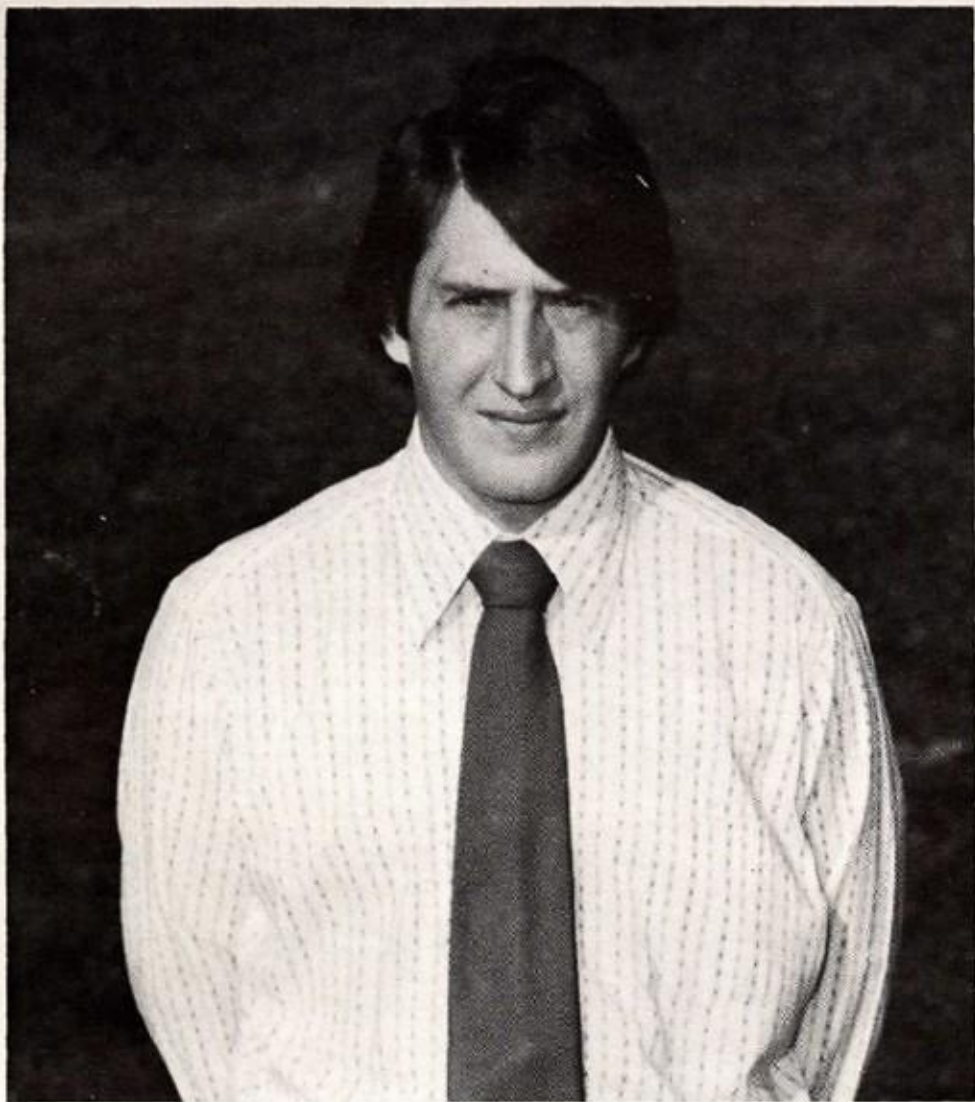

Left to right, ROW 1: D. Slates, A. Danjou, J. Kress, J. Snatchko, K. Coufman. ROW 2: W. Hainaut, R. Sherge, D. Weidner, S. Cass, K. Bailey, M. Bonnet, J. Hoag.

Trophy winners Kevin Coufman, Allan Danjou, and Jack Kress.

The Ranger Volleyball team served, set, and spiked their way to an outstanding 9-3 record this season. The girls worked hard for their success and didn't let a few disappointing losses get them down. Junior Michele Caldwell led the team in serving, with a remarkable service of 103 points. With only one senior member leaving, Coach Sundberg and her enthusiastic team are looking forward to another winning season next year.

Missed practices and cramped daylight game schedules due to the energy crisis left the basketball team with a season record of 4 wins-17 losses, and a record of 2-14 in Section 12-AA. However, many of the game scores indicate that the team put forth a good offensive effort, and kept some normally high-scoring teams to a minimum with a strong defense. Coaches Mr. Cunning and Mr. Yanosik and the team are to be commended for a fine effort during this very unusual season.

The wrestlers came out of the season with an 8 win-3 loss record, a fine showing once again by F.C.'s matmen and coaches, Mr. Dellapina and Mr. Antozeski. Senior Rich Deveaney was undefeated during the season, and the team placed second in Black Hills Tournaments and Section AA Tournaments. Gary Jackson and Joe Zombek took the section title for their weight classes, with Rich Deveaney, Hoagy Gregg, and Dave Femovich placing second. Good luck to these wrestlers as they continue in the tournaments, and congratulations to the team and their coaches.

SR. HIGH CHEERLEADERS

Left to right, ROW 1: K. Willis, V. Zarka, D. Patrick, N. McCaffrey, J. Welsh, C. Lewis. ROW 2: D. Phillips, K. Pascoe, J. Lukan, L. Cowden, M. Delair, Shaffer.

Sponsor - Mrs. Rawlins

The senior high cheerleaders, sponsored by Mrs. Rawlins, did a fine job this year, inciting new spirit in the student body for football season and adding some new dimensions to pep assemblies. Seven of the girls attended a cheerleading camp last summer at West Virginia Wesleyan College, where they qualified for competition for the Award of Excellence and won several ribbons, among them "superior" and "outstanding". The squad plans to participate in Washington County Competition in the spring.

Left to right: K. Pascoe, V. Zarka, M. McCaffrey, J. Welsh, M. Delair.

Top to bottom: L. Cowden, D. Phillips, K. Willis, C. Shaffer, C. Lewis, D. Patrick.

Dr. Charles M. Hughey Award

"Leadership, high moral standards, athletic ability, and scholastic achievement." These are the qualifications that the Fort Cherry High School faculty look for when presenting the Dr. Charles M. Hughey Award. This year's recipient, David Weidner, fulfills each qualification. David has shown his leadership by working his way to becoming the first Eagle Scout in his home town. Over the past three years, he participated in golf and baseball, lettering in both. He was also an active member of Weightlifting, Drama Club, Math Club, and Varsity Club. David shows his scholastic achievement by holding a high position in the class and being a member of the National Honor Society. Congratulations and Good Luck!

Bausch & Lomb Science Award

This year, Fort Cherry's science teachers chose Natalie Ruschell to be the recipient of the annual Bausch & Lomb Science Award. Every year this award is presented to the graduating senior chosen to be the best science student. Natalie is a dependable and hard working student and has held many responsible positions on the Prom Decorating Committee, Student Council, and Jr. Class Play Committee. We of the Panorama Staff are also grateful to her for all the time she gave to the '77 yearbook. Besides these, Natalie is also an officer of the National Honor Society, a member of the Drama Club, Chorus, and Science Club. Above all, she maintains a consistent high grade point average. Our congratulations to Natalie for receiving this award.

D.A.R. Award

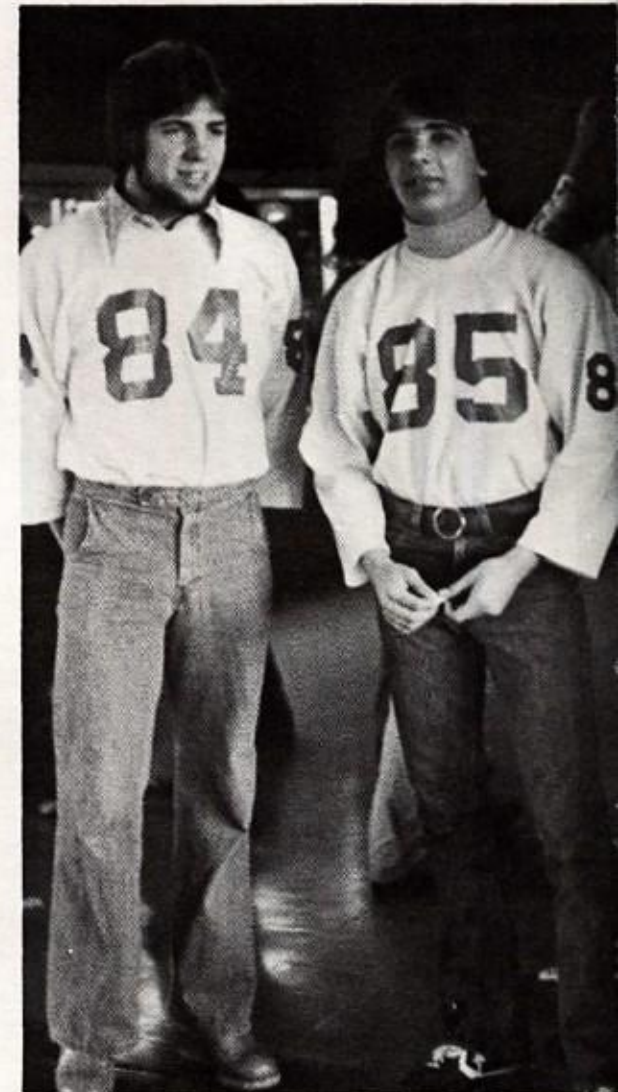

Cynthia Eger was chosen by the Senior Class to receive the Daughters of American Revolution Award based on the qualities of character, dependability, service, and patriotism. Despite her many and varied activities, from drum majorette to Election '76 committee, she has maintained a high grade point average during her high school career. Cindy's faith in God, shown through her vibrant smile and concern for her fellow students, has set an example to all of us. Her future plans are to attend college, major in Political Science, and eventually work for the State Department. With her determination and personality, she is sure to have a bright future.

American Legion Auxiliary Award

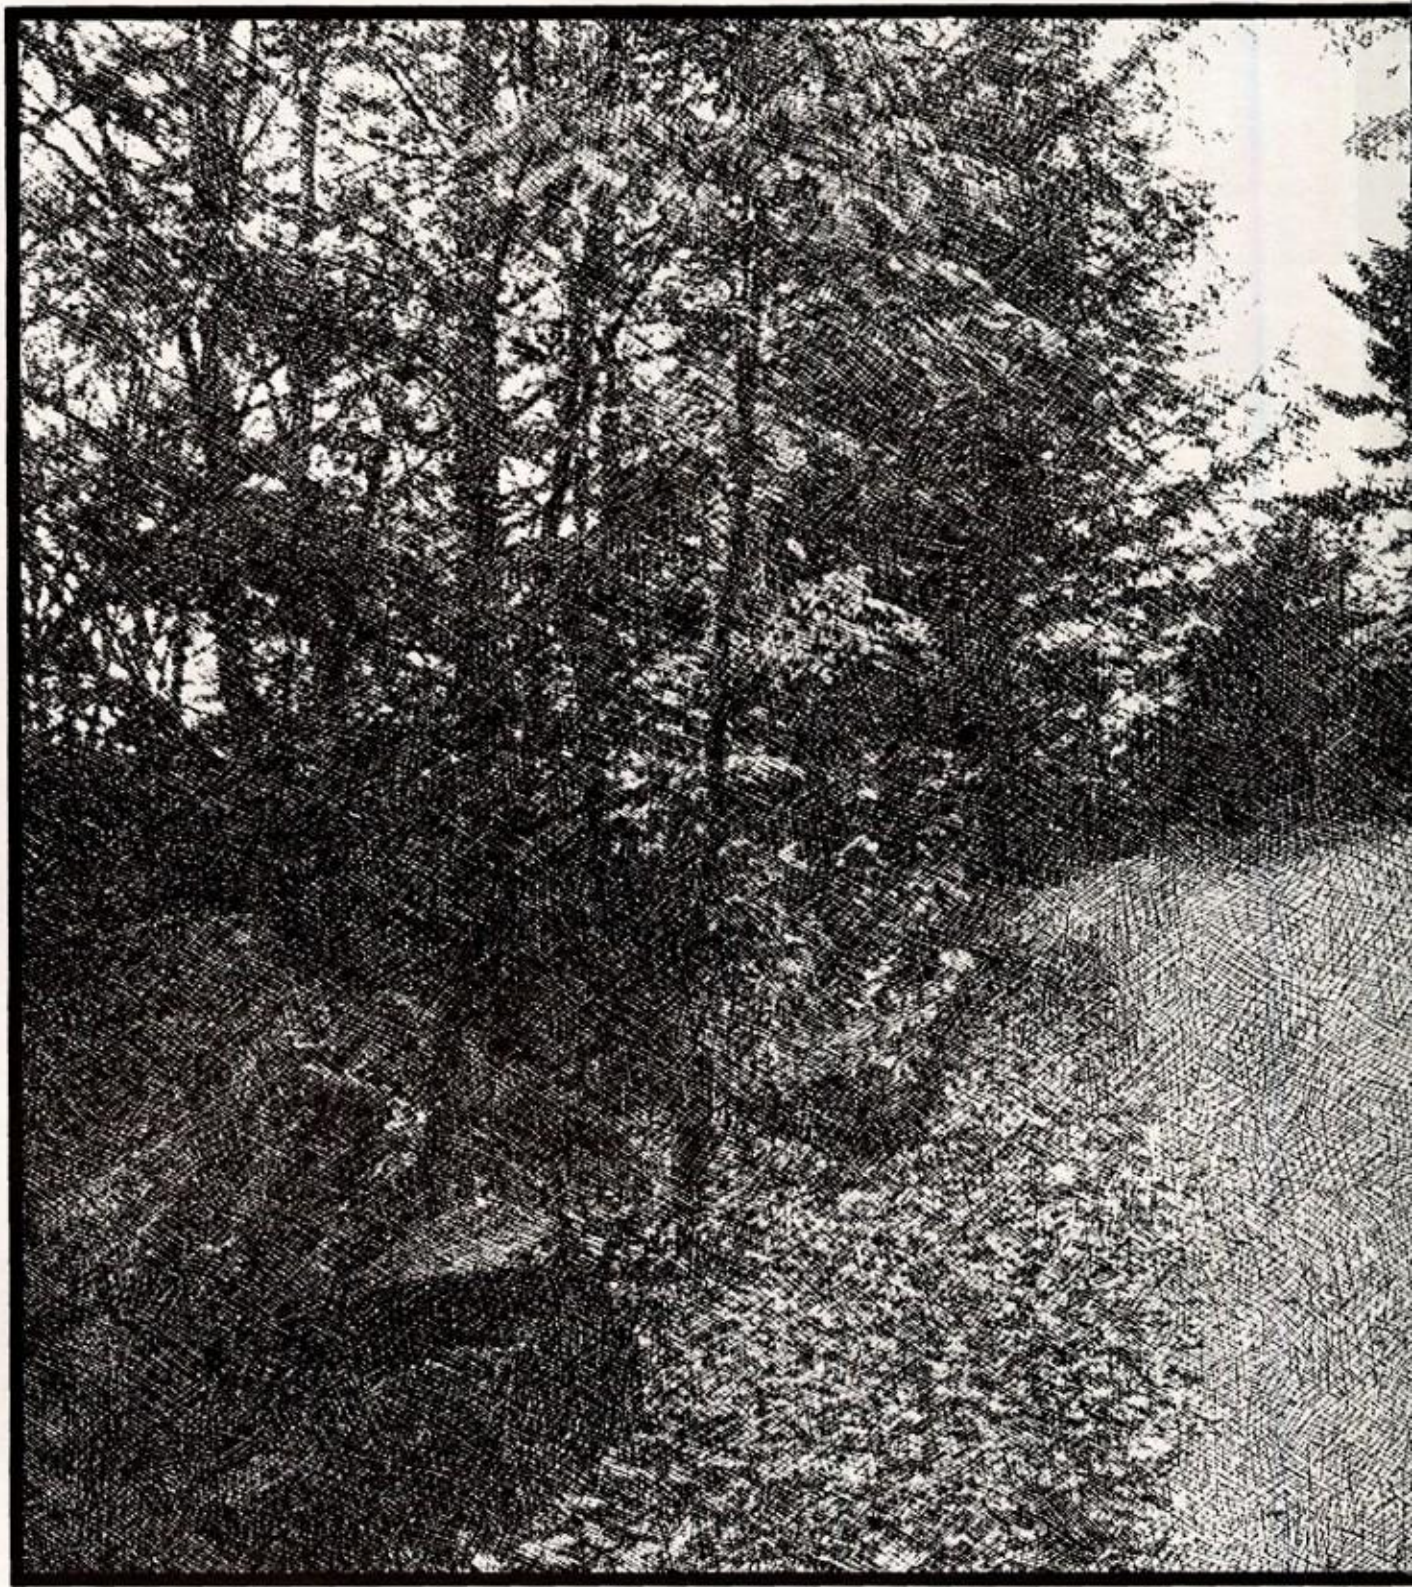

The 1977 American Legion Auxiliary Award was presented to Kimberly Kosak. Kim was selected, by a vote from the Senior Class, which based the award on her service, honor, scholarship, leadership, Americanism, moral courage, and good citizenship. Much of her time was devoted to the Panorama, however she still found the energy for Student Council, Chorus, and other activities, and maintaining a 4.0 grade point average. Kim plans to attend the University of Pittsburgh next year to prepare for a career in engineering. While a Senior she was a representative at the Penn State Science Symposium. We join in wishing Kim success in the future.

Only generations
to come can write
this closing. We
can only have the
pleasure of
knowing that we
have done our
work for now.

CLOSING

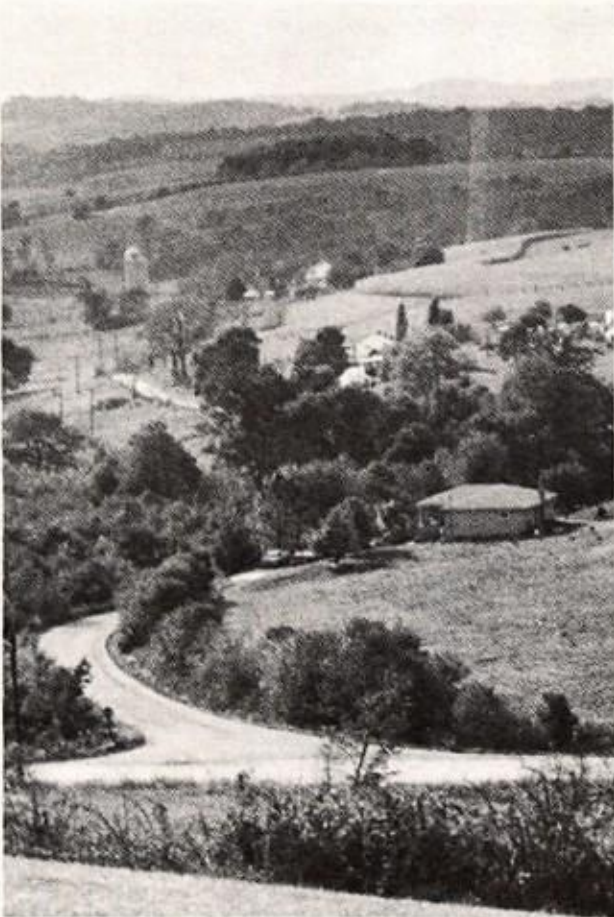

Then a ploughman said, Speak to us of Work.

And he answered, saying:

You work that you may keep pace with the earth and the soul of the earth. For to be idle is to become a stranger unto the seasons, and to step out of life's procession, that marches in majesty and proud submission towards the infinite.

When you work you are a flute through whose heart the whispering of the hours turns to music.

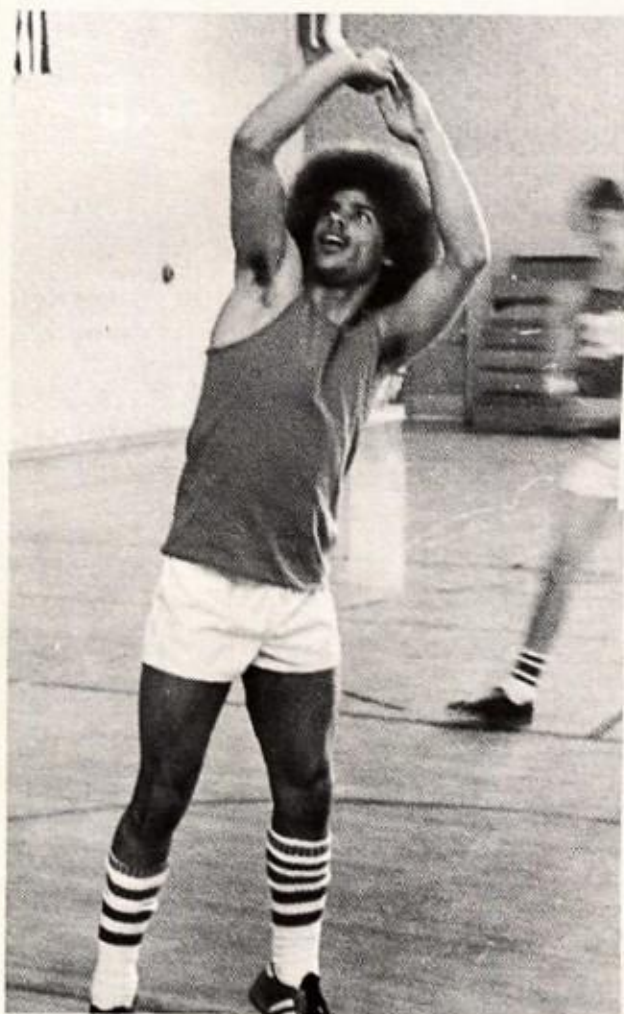

Which of you would be a reed, dumb and silent, when all else sings together in unison?

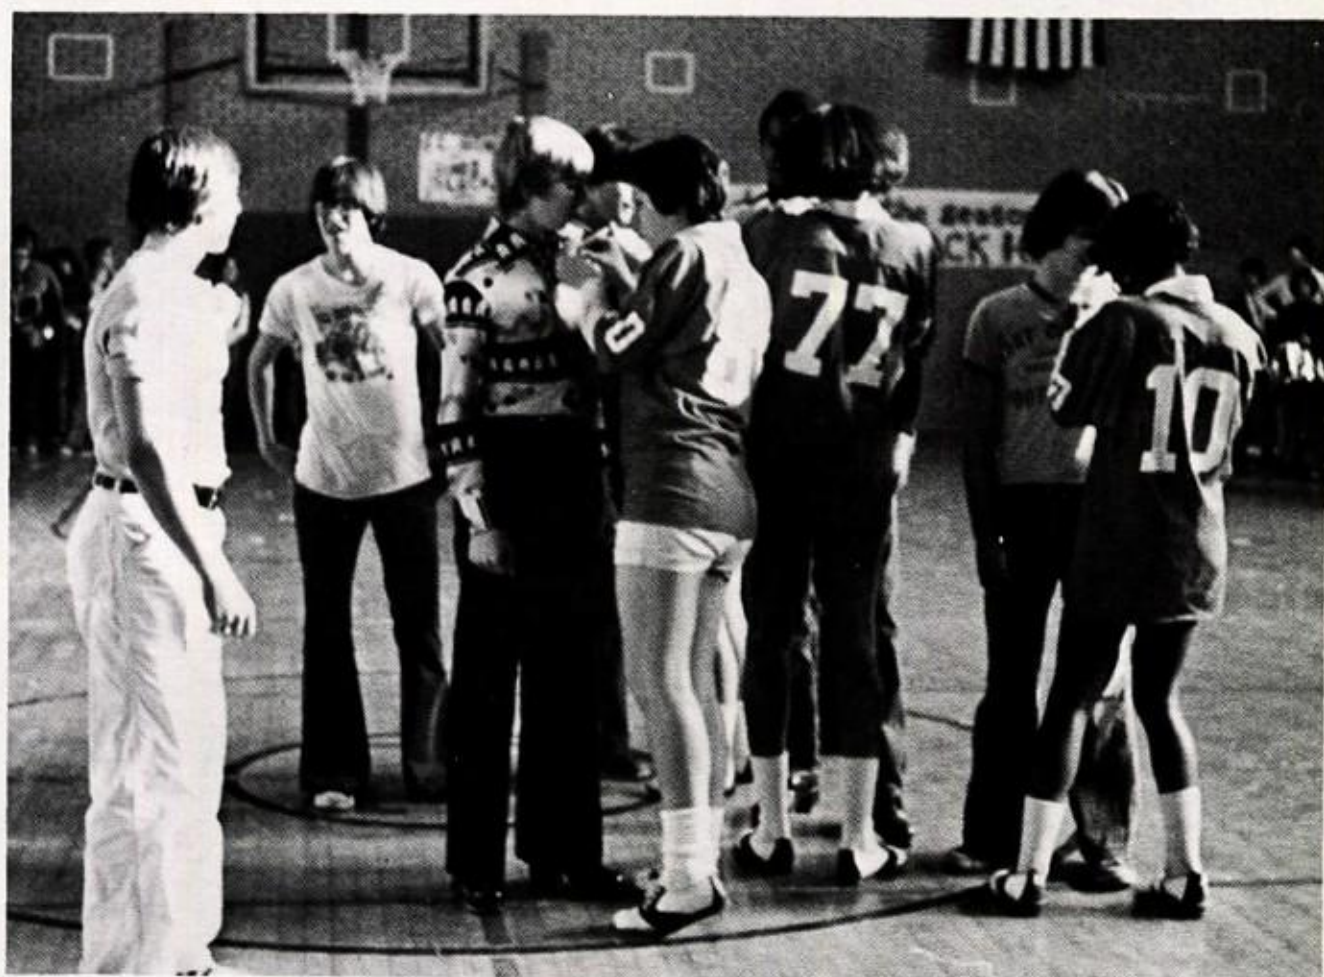

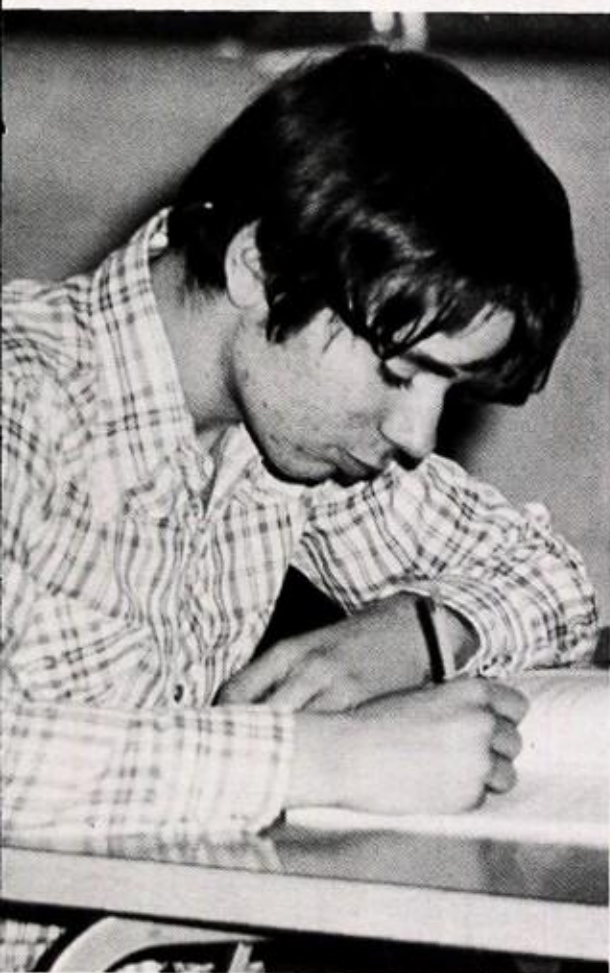

Always you have been told that work is a curse and labor a misfortune. But I say to you that when you work you fulfill a part of earth's furthest dreams assigned to you when the dream was born.
And in keeping yourself with labor you are in truth loving life,
And to love life through labor is to be intimate with life's inmost secret.

But if you in your pain call birth an affliction and the support of the flesh a curse written upon your brow, then I answer that naught but the sweat of your brow shall wash away that which is written.

You have been told also that life is darkness, and in your weariness you echo what was said by the weary.
And I say that life is indeed darkness save when there is urge,
And all urge is blind save when there is knowledge,
And all knowledge is vain save when there is work,
And all work is empty save when there is love;
And when you work with love you bind yourself to yourself, and to one another, and to God.

And what is it to work with love?

It is to weave the cloth with threads drawn from your heart, even as if your beloved were to wear that cloth.

It is to build a house with affection, even as if your beloved were to dwell in that house.

It is to sow seeds with tenderness and reap the harvest with joy, even as if your beloved were to eat the fruit.

It is to charge all things you fashion with a breath of your own spirit, And to know that all the blessed dead are standing about you and watching.

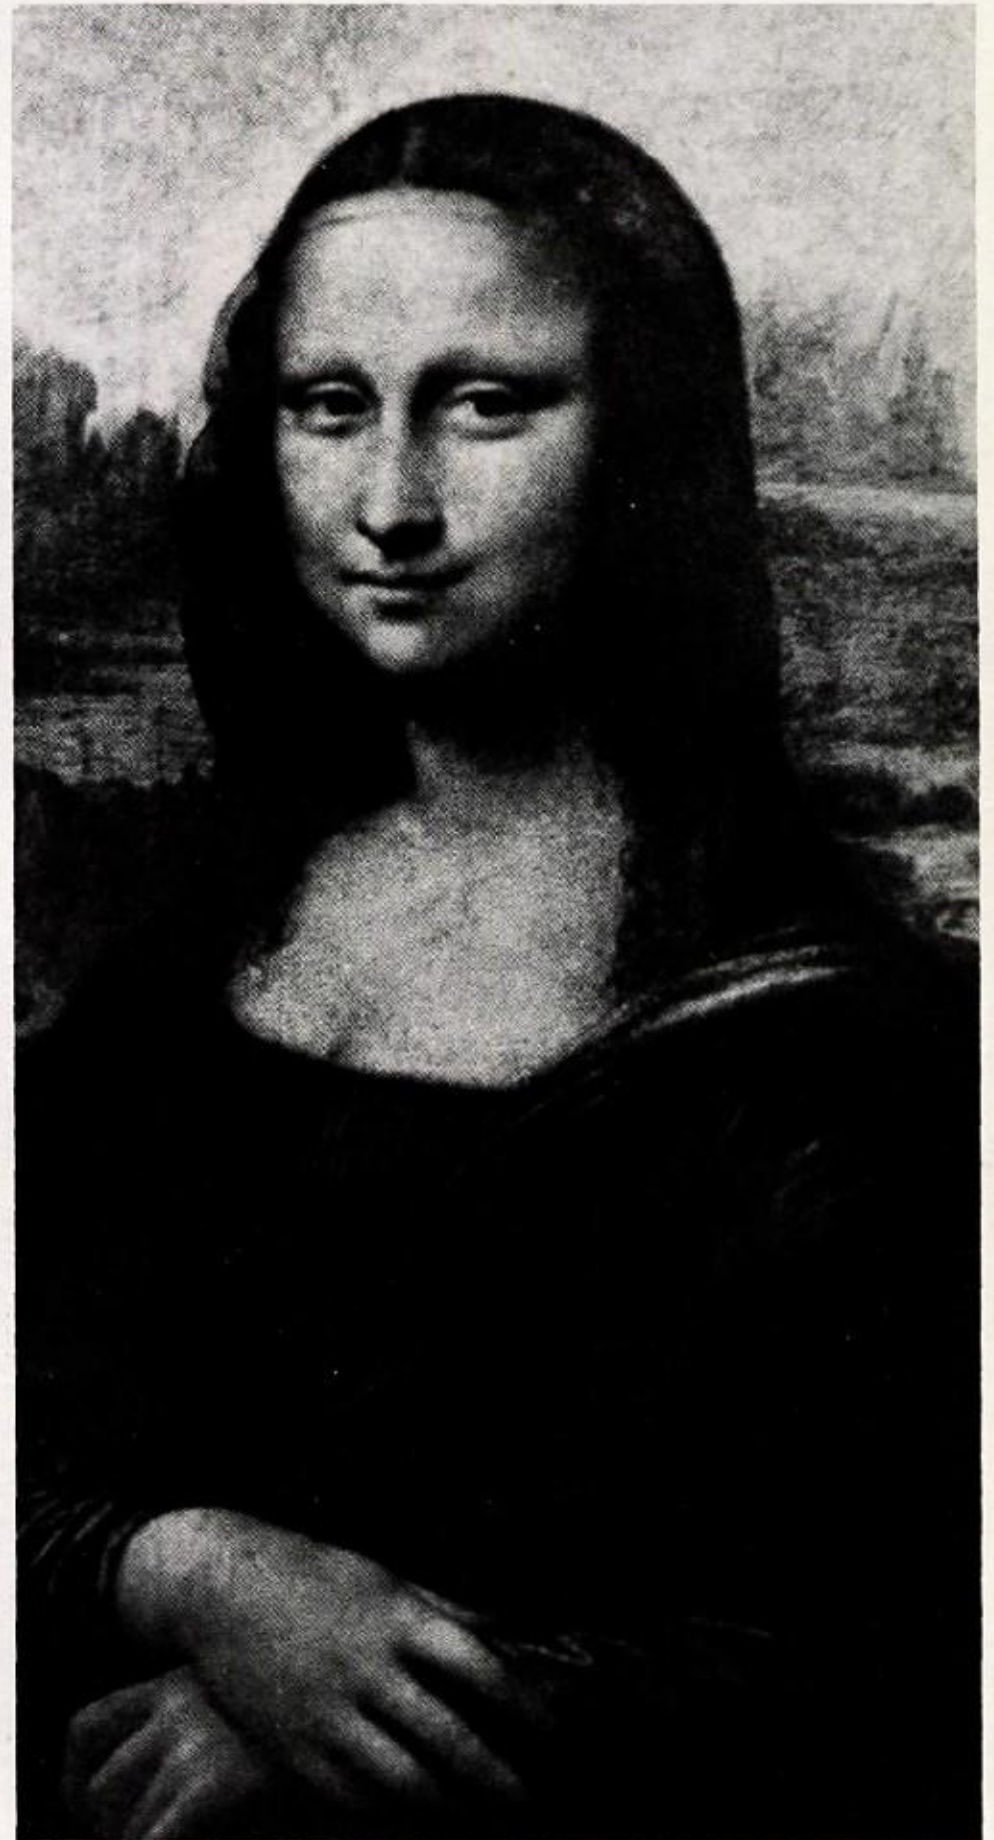

Often have I heard you say, as if speaking in sleep, "He who works in marble, and finds the shape of his own soul in the stone, is nobler than he who ploughs the soil.

And he who seizes the rainbow to lay it on a cloth in the likeness of man, is more than he who makes the sandals for our feet."

But I say, not in sleep but in the over wakefulness of noontide, that the wind speaks not more sweetly to the giant oaks than to the least of all the blades of grass;

And he alone is great who turns the voice of the wind into a song made sweeter by his own loving.

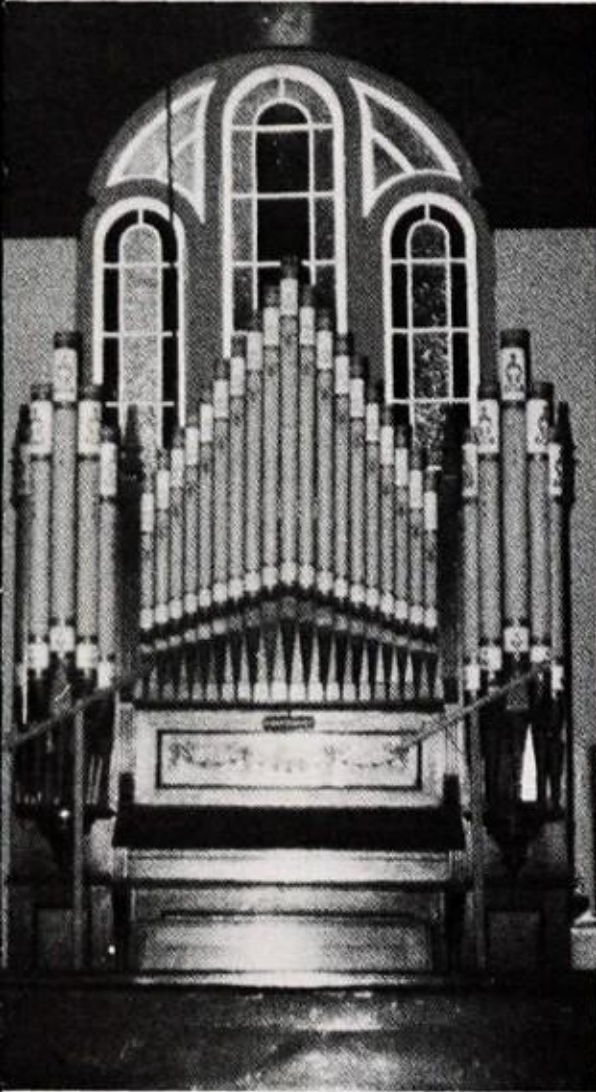

Work is love made visible.

And if you cannot work with love but only with distaste, it is better that you should leave your work and sit at the gate of the temple and take alms of those who work with joy.

For if you bake bread with indifference, you bake a bitter bread that feeds but half man's hunger.
And if you grudge the crushing of the grapes, your grudge distills a poison in the wine.
And if you sing though as angels, and love not the singing, you muffle man's ears to the voices of the day and
the voices of the night.

"On Work." Reprinted from THE PROPHET by Kahlil Gibran, by permission of Alfred A. Knopf, Inc., copyright 1951 by Administrators of C.T.A. of Kahlil Gibran Estate, and Mary G. Gibran.

Shelley,
Go a real crazy
friend & re-know
for a long time. You
probably beat the world's
record for causing the most
trouble in one year. How about
behaving yourself from now on?
Rem, all the fun history classes &
See ya this summer at Drill Team
Practice.
Good Luck
Patty

Shelley
to a very mixed up
young lady. I hope
you find what you
really want out of
life. Good luck in
all you do & attempt
to do. (Hint, Hint)
for you M
Frances
Temp.

Shelly
To a nice
girl I have known
for a long time
with period
Mike D

Dear Shelly
I hope you
are well and
happy. I am
well and happy
and hope you
are the same.
I love you
and hope you
love me too.
Mike D

Shelby
to one of the people I met
Sweet and ball season. Rem
during those times we had at the
all the fun those things for had to
parties & all those times you got a trouble &
do. Rem all those times. Rem who. On those times when
the turtle or luddy bear. Rem who. On those times when
we talked about you know who. On those times when
all the fun we'll have best year
Always
April
